**Registration Timeline for the
2016 ITU Long Distance Triathlon World Championships
And the Redman Triathlon:**

The Redman Triathlon has a stated capacity of 1200 athletes.

The athletes that have qualified with and must be registered by their national federation for ITU Long Distance Triathlon have priority for those slots.

Any remaining slots (if there are any) will be made available on a first come, first served basis to an open field that will be competing in the Redman Triathlon, which would run simultaneously alongside the World Championships.

Neither event will have potential for standings in the other staged event.

Estimated Timeline:

6/30/16

National Federation Team Rosters for Age Group Athletes must be submitted. Only qualified (by their National Federations standards and approved by ITU) athletes that are registered with and by their National Federation are eligible.

7/5/16

The Local Organizing Committee for the 2016 Long Distance Triathlon World Championships will submit invoices for the registration fees related to the registered team rosters to the National Federations.

7/15/16

All National Federations with the ability to transfer funds electronically will be required to submit 50% of the invoiced amount for the Age Group fields.

8/1/16

All National Federations with the ability to transfer funds electronically will be required to submit the remaining 50% of the invoiced amount for the Age Group fields.

Open balances will result in that team's registered slots being released to a waiting list of federations needing more slots or to the open field for the Redman Triathlon.

8/5/16

Estimated date for the release of and registration opening for any available open slots for the Redman Triathlon (with an allocated number of slots reserved for the remaining needs of the World Championship/ITU field).

8/10/16

Estimated date for the closing of registration for any available open slots for the Redman Triathlon.

8/20/16

National Federation Team Rosters for Elite Athletes and Para-Triathletes must be submitted.

Only qualified (by their National Federations standards and approved by ITU) athletes that are registered with and by their National Federation are eligible.

9/1/16

All National Federations with the ability to transfer funds electronically will be required to submit 100% of the invoiced amount for the Elite Athlete and Para-Triathlete fields.
