ITU Competition Rules

A INTRODUCTION

A.1 Purpose

- a) The International Triathlon Union (ITU) is the sole governing body, responsible to enact Competition Rules for Triathlon, Duathlon, Winter Triathlon, Aquathlon and other modern multi sports;
- b) The International Triathlon Union Technical Committee (ITU-TC) will ensure that technical aspects of ITU competitions are of the highest quality;
- c) The ITU Competition Rules specify the conduct and behaviour of competitors during ITU competitions. Where the ITU Competition Rules do not specify, the rules of FINA, UCI, FIS and IAAF will apply in their specific segment;
- d) The ITU Event Organisers Manual sets safety and logistical standards for host National Federations (NFs) and to the Local Organizing Committee (LOC);
- e) The ITU Technical Officials (ITO) Program sets the standards for certifying ITU Technical Officials;
- f) Some rules apply only to the World Championships;

A.2 Intention

The ITU Competition Rules are intended to:

- a) Create an atmosphere of sportsmanship, equality, and fair play;
- b) Provide safety and protection;
- c) Emphasize ingenuity and skill without unduly limiting the competitor's freedom of action;
- d) Penalise competitors who gain an unfair advantage;
- e) Endorse the principle that Triathlon and Duathlon are individual sports and encourage individual performance and initiative.

Definitions of all terms used in these Competition Rules are provided at **Appendix D**. Any difficulty in the interpretation or application of these Rules should be referred to the ITU Technical Committee.

A.3 Modifications

- a) These rules will be adapted for other modern multi-sport competitions, which fall within the jurisdiction of ITU, i.e. Duathlons, Winter Triathlons, Indoor Triathlons, Aquathlons, Canoe Triathlons, Off-Road Triathlon/Duathlon and Team Competitions;
- b) A competitor must not be permitted an advantage not intended by a rule. To implement this, many of the rules are in general terms. This eliminates a multiplicity of rules and provides officials with authority to adapt the rules to fit conditions. Officials base their judgment on whether an advantage, not intended by the rules, has been gained;
- c) ITU Competition Rules will be applicable to international competitions hosted by National Federations (NFs) affiliated to ITU.

ITU Competition Rules

A.4 Exceptions

These ITU Competition Rules will be applicable to all events sanctioned by ITU and its affiliated NFs and are to be implemented by the appointed Technical Delegate as appropriate. Where the ITU Competition Rules conflict with the laws of the jurisdiction in which the event is to be held, the ITU Competition Rules will override the laws of the jurisdiction to the extent of the inconsistency, and competitors must be notified of the implications of these laws as early as possible and not later than prior to the start of the event. Exceptions for special circumstances in a particular event may only be gained from ITU with prior approval. A request for an exception to these Rules must be made in writing to the ITU Technical Committee (ITU-TC) through the NF to whom the application has been submitted or is being submitted.

A.5 Special Rules

A race Technical Delegate may approve the addition of special rules for a particular race, provided that:

- a) Each additional special rule does not conflict with another ITU Competition Rule;
- b) Each additional special rule is made available in written form and is announced to the participants before the event; and
- c) Each additional special rule and the reasons for its inclusion are advised to the ITU-TC before the day on which the event is to be conducted. The ITU-TC may invalidate the incorporation of an additional special rule only on the authority of the ITU Executive Board.

A.6 Unauthorized Exceptions or Additions

The unauthorised exception to or addition of a Competition Rule will prevent an event from being sanctioned and will invalidate a sanction, which has already been granted to an event. This could result in legal complications, particularly in the case of accidents during the event and in subsequent requests for approval from NFs and/or municipal authorities to use roads and waterways. Insurance authorities have also warned that claims made under such circumstances may be considered invalid.

A.7 Rule Updates

These Competition Rules may be changed from time to time by the ITU-TC in its absolute discretion, under the direction of the ITU. Any such rule change(s) shall be advised in writing to the affiliated NFs at least 14 days before it is to take effect. Updated ITU Competition Rules will be posted on the ITU website (www.triathlon.org).

- c) A competitor, who approaches from any position to take advantage of the draft, bears responsibility for avoiding the draft.
- d) To draft is to enter the bicycle or vehicle drafting zone:
 - i. Bicycle draft zone: the draft zone will be a rectangle 3 meters wide. The center of the leading 3-meter edge will be measured from the leading edge of the front wheel. The long of the rectangle depends on the races For Elite races 10 meters

See the diagrams below for events where left hand side road rules apply.

Diagram 1 Distance of Drafting Zone for ALL Competitors

Diagram 2 Drafting

A has overtaken B and B is now drafting the lead cyclist A. B must drop out of A's draft zone before attempting to re-pass A. A must move to the Left Hand Side of the road when safe otherwise A can be called for blocking. B can only overtake A on A's Right Hand Side.

Diagram 3 Blocking

A and B are maintaining adequate separation between each other, even though they are abreast to one another. B is not drafting A in this instance. A however, is now in a BLOCKING position. If A remains out to the Right Hand Side, A will receive a blocking penalty.

Diagram 4 Drafting and Not Drafting

A and B are maintaining adequate separation. C is not attempting to pass B. C is drafting B. A and B are not drafting.
