2022 Abu Dhabi Para NFs Meeting

Eric Angstadt Torres
Para triathlon Senior Manager
Agenda

1. Events
2. Classification
3. IPC Updates
4. Participation and Figures
5. Mixed Relay
6. Development
7. Int. Para triathlon Conference
8. AOB
2023 Calendar

**Para Cups:**
- 2023 World Triathlon Para Cup A Coruna
- 2023 World Triathlon Para Cup Besancon
- **2023 World Triathlon Para Cup Long Beach***
- **2023 World Triathlon Para Cup Paris***

Working with 3 more possible candidates

**Para Series:**
- 2023 World Triathlon Para Series Devonport
- 2023 World Triathlon Para Series Yokohama
- **2023 World Triathlon Para Series Swansea***

Working with 1 more possible candidates

**World Championships**
- **2023 World Triathlon Championship Finals Pontevedra***
Continental Para Cups:
2023 Americas Triathlon Para Cup St. Peters Missouri
2023 Africa Paratriathlon Cup Sharm El Sheikh
2023 Africa Triathlon Paratriathlon Cup Shandrani*

Continental Championships
2023 Americas Triathlon Para Championships Sarasota
2023 Europe Triathlon Championships Madrid*
2023 Africa Triathlon Championships Sharm El Sheikh

CLASSIFICATION

IPC Classification Code Review

- 1st Round of Consultation: June to September 2021

- Lengthy review of feedback

- July 2022: compiled feedback and release of 2nd round of consultation until December 15th 2022

- Consultation Calls, HoC, IFs, Athlete representatives
## Classification Costs and figures

- **PI Average** = 133,39$  
- **VI Average** = 234,95$  
- **Athlete Avrg** = 185$

*(*) 5 Events, 4 Out of Competition, shared with other IFs and IPC

The cost is significantly when shared, We are pushing IPC in this direction
Sustainability for Classification

- Cost?

- Protest Opportunities

- Engagement of Classifiers

- Regional Investment and Out of Competition Opportunities (VI)
Classification System Changes July Survey

Consultation Phase
Most Important items

• More classes, split of the PTS4, differentiate between upper and lower limb impairments, blade users vs arm impairments in disadvantage
• Neurological impairments, spasticity and coordination topics. System that considers functional capacity of Rom and muscle power. Athetosis, dystonia and hypertonia are currently based on the fact that they are either present or not present.
• Considerations around symmetry and its current importance in the scoring, unfair for athletes with symmetrical impairment
• Split in the PTWC needs to change and go lower
• Consideration on the through the wrist MIC
• Any changes should have strong evidence behind them and add to the sport.
Most Important items (2)

- Can athletes choose to use a wheelchair or what are the criteria to use wheelchairs for racing?
- Current scoring is not represented accurately in results specific to PTS2 and 3, the complex scoring may be missing how the impairments are actually impacting ability or ranges of ability to perform swim/bike/run
- Ensure that the system is easily understood and protocols are well documented, as the formulas and rationale behind the spreadsheet appears complex.
- Cycling power
- Spasticity and coordination tests
- ROM protocols could be clearer
- Medical - impairment specific technical - practical evaluation based on biomechanics/physiology as opposed to just the FAP
PTWC Sport Classes

- There should continue to be 2 sport classes with a different cut-off score.
- This system is important to continue as is with the number of WC athletes especially for females. If the categories are separated there would not be a larger enough athlete pool.
- As the sport continues to develop it is positive to have the interval start system facilitating more athletes with the opportunity to compete at the Games. With the cut off changed and then a clear justification around the interval start times the category would feel more positive and transparent.
PTS – Standing Classes

- There should be different ranges in scores for each of the existing classes
- Neurological impairments should be allocated into a completely different set of sport classes
- Some of the classes could be merged, so less classes.
- There should be more classes – some of the current ones be split
- A more precise system with still class, but smaller classes. So you can adapt number a medal event depending on what you want
PTVI

- Resume the work done in 2015 and 2016 with partners that wish to do research in the visual field
Classification System Changes Survey

Ø The vast majority of the feedback indicated to implement changes post-Paris 2024

Ø Implications and viability
  o Proper research and testing
  o Impact on Medal Events Programme
Classification Survey

Continue Using the Interval Start System
In VI: Yes, consider separating in different medal events

Continue Using the Interval Start System
In PTWC: Yes, consider separating in different medal events
IPC Updates

- LA 2028 Bid Application
- Once confirmed on the programme, we will have the Medal events proposal
- Review of the Interval Start System

</table>

- This is for Year 1 (…actually Year 2 of the cycle)
- Considerable drop
- Pandemic?
- Sport becoming too elite?
- Events are not full (Invitation panel at 3 events in 2022)
- Enough Classification opportunities
- In-Depth analysis to be done in the first semester of 2023
- Development projects and engagement of the Continental Confederations

WHY?

- Pandemic?
- Cost of travelling and everything in general?
- Level of Competition too high and discourages athletes to give it a try?
- Classification System?
- Other?
MAGIC SOLUTION?
Para Triathlon Mixed Relay

- 9 teams tomorrow, 3 of them from combined NFs
- A team will consist of 4 athletes, 2 men and 2 women
  (3 athletes are possible with both genders represented with one athlete repeating a segment)
- Each athlete to complete 125-150m Swim, 3.5 - 4km Bike and 0.8 - 1km Run
- A wheelchair athlete must cover the first leg. There can only be one PTWC and one PTVI athlete in each team and cannot repeat a leg.
- Gender is not a factor in determining the start order of the athletes
- Each sport class is assigned a numerical weight to balance teams and a team can have max 20 points
- The last team member crosses the finish line.

DEVELOPMENT

• Networking (Coaches and Athletes)
• Mentoring Initiatives, at events and outside events
• Equipment network, priority for handbikes and tandems, second hand prosthetics/blades or even apre running shoes, wetsuits, etc

• Continental Confederation budgets & application
• Quota at events?
• Ranking points adequate?

• EDUCATION COURSES
  - Para Coaching Certification
  - Classification Certification
Development Project – IPC Membership Grant

- World Triathlon applied for an IPC Membership Grant for development
- This grant covers countries in the following regions:

<table>
<thead>
<tr>
<th>West Asia</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bahrain (BRN), Iraq (IRG), Jordan (JOR), Kuwait (KUW), Lebanon (LBN), Oman (OMA), Palestine (PLE), Qatar (QAT), Saudi Arabia (KSA), Syria (SYR), United Arab Emirates (UAE), Yemen (YEM)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Central Asia</th>
</tr>
</thead>
<tbody>
<tr>
<td>Kazakhstan (KAZ), Iran (IRI), Kyrgyz Republic (KGZ), Tajikistan (TJK), Turkmenistan (TKM), Uzbekistan (UZB)</td>
</tr>
</tbody>
</table>

- Confirmed participants from Lebanon, Jordan, Kuwait, United Arab Emirates, Bahrain, Saudi Arabia and Uzbekistan*

- Saudi Triathlon Federation hosting the event and assisting World Triathlon with all logistics

- Event in Al Khobar 3-5 December including Para Coaching certification and Introduction to classification
Development Project Opportunities

- EUROPE – Triathlon Ireland
- SOUTH EAST ASIA and China
- AFRICA
- SOUTH AMERICA
SWANSEA International Para triathlon Conference
Driving Para Triathlon Parity

Key themes
- Para Triathlon Vision
- Classification
- Para Triathlon Development
- Event Investment
- Event Presentation

Key themes
- Facilitated discussion
- Presentations
- Practical sessions and observations
- Leaders in their field
- Clarity of vision for Para Triathlon
- Connections between NFs
- Action Planning
- Models of good practice
- A shared ambition for parity between Para Triathlon and Triathlon
- A desire to secure the future of Para Triathlon

55 attendees

Representation from 21 NFs

Net promoter score: +80

100% of attendees would attend again next year

What is one thing you have taken away from this conference that will help you to drive para triathlon parity in your own National Federation or on the World Stage?

"Para needs a strong voice within WT and this conference needs to become an annual event to further strengthen its position and development"

"The need for senior leadership involvement & awareness"

"There is a huge gap in the communication of this sport even among those who are involved in it"

"We have a lot to learn from each other and we should exchange a lot more, especially on development topics"

"That we all have a voice and are leaders in this field and its up to us to drive change and move forward"
Athlete Experience

• Diligent event planning with clear guidelines, expectations and standards. (Particularly regarding swim water quality, swim exit, accessibility (esp. PTWC) and safety for athletes).
• Every LOC to have consultation with coaches and/or athletes at every stage of the planning process to discuss potential challenges and support athlete experiences.
• Training package for water exit handlers to ensure consistent and high quality experience.
• Communication of course features in advance to allow for effective planning and preparation.
• Expectations for gathering feedback from athletes and coaches AND sharing that learning to improve ALL events.

Collaboration and sharing

• More coordinated ways to effectively share best practice on event planning and delivery that spans the range of different size NFs / fields etc.
• Ensuring and taking responsibility for learning from one event to the next – we shouldn’t be talking about the same challenges from one race to the next OR common known challenges should be discussed in advance to manage expectations rather than ignored or hidden until race day.
• Create a coordinated group to drive this work forward and support the Paratriathlon Committee/build greater resource in this area.
• Run the conference again next year with more attendees from more NFs.

Finance

• A prize-fund for Paratriathlon races has to be a priority, athletes are leaving to move to sports where prize money is offered and we increased the prize-fund for the WTCS when we could have offered something to the Para series.
• Critical that we find global partners/sponsors for Paratriathlon to support prize money and development initiatives.

Exposure / Interest

• More high quality social media campaigns / content to drive paratriathlon interest alongside triathlon.
• Clear guidance and support around event coverage, video packages and broadcast.
• Review and reimage the live information/data we can share during races to make them much easier to watch/follow and more interesting for viewers.
• Tell more, in depth stories about athletes, their goals and achievements.
• Explore the rivalries in the sport to show how competitive it is more.
• Develop a Paratriathlon Mixed Team Relay ASAP.
