### **What is In-Competition testing?**

In-Competition testing takes place during the “in competition period” as defined in the World Triathlon Anti-Doping Rules.

More specifically “*In-Competition*” means the period commencing at 11:59 p.m. on the day before a Competition in which the Athlete is scheduled to participate through the end of such Competition and the Sample collection process related to such Competition.

### **What is Out of Competition testing?**

Out-of-Competition testing is testing done outside of the in-competition period, at anytime and anywhere and usually with no-advance notice.

More specifically, and logically, “*Out-of-Competition*” is defined in the World Triathlon Anti-Doping Rules as any period which is not In-Competition.

*Various other definitions are provided in Appendix 1 of the World Triathlon Anti-Doping Rules and in all WADA International Standards*
