PROVISIONAL CLASSIFICATION FORM

Athletes wishing to enter an ITU Paratriathlon competition must be classified. Classification ensures fair and equitable competition and involves assessment by a qualified ITU Classifier to determine eligibility for competition and the allocation of a competition class. At ITU competitions where classification is not available, a provisional classification may be given for that event.

This form must be completed and submitted together with the ITU PI Medical Diagnostics Form or the ITU VI Medical Diagnostics Form.

Additional information may be required. Information disclosed in these forms will be dealt with in confidence by ITU.
