1. ITU Congress & Meetings
SECTION A: OVERVIEW OF SERIES & THE MANAGEMENT TEAM
1. INTRODUCTION:

1.1 The ITU World Triathlon Series (WTS) brings together the world's premier triathlon events. The series is wholly owned by the International Triathlon Union (ITU), the world governing body of the sport. ITU will use its highly experienced staff to support each Local Organising Committee (LOC) in delivering a world class event. ITU will provide key operations staff to support the event (outlined below) during its operation.

1.2 The ITU World Triathlon Series is developed in collaboration with various stakeholders which will partner with ITU in producing the series, forming a professional and highly experienced Series Management Team (SMT).

1.3 The Objectives of the Series Management Team (SMT) are:

a. To form a management partnership with the Local Organising Committee (LOC) and the Host City (HC) and support the LOC in reaching the world class standards consistent with each event in the series.

b. To collaborate closely with the LOC, the National Federation (NF) of the country and the Host City (HC). In addition to this document, the ITU Event Organisers’ Manual and the WTS Branding Guidelines will be used as working documents by the LOC and include all the necessary additional information to deliver the event details. Executing the details is a matter of agreement with ITU, the Team Leader (TL) and the ITU Technical Delegate (TD). All documents can be downloaded from www.triathlon.org.

c. To ensure the LOC complies with the ITU Competition Rules.

2. THE PRINCIPLES OF ITU WORLD TRIATHLON GRAND FINAL:

2.1 A safe and fair environment for the athletes;

2.2 High quality events with consistent technical standards and brand consistency i.e. ‘Look and Feel’;

2.3 Spectacular events showcasing the city through media exposure and significant spectator audiences;

2.4 Deliver to a worldwide audience through live television, highlights shows and other media;

2.5 Opportunity to bring international visitors to the host city;

2.6 Deliver high quality opportunities and total satisfaction to sponsors;

2.7 Sport development opportunities and a legacy for the HC and NF;

2.8 Development opportunities for local community with corporate participation.

3. KEY CRITERIA:

3.1 High quality events with a consistent brand and standards;

3.2 Elite events preferred on two separate days of the weekend with a multi-lap course;

3.3 Mass participation events managed according to the ITU Competition Rules and linked to the elite programme to create a major spectacle;

3.4 Venue set up in city center with grandstand and live TV broadcast on big screens;

3.5 Large numbers of spectators;

3.6 High Quality experience for all participants;

3.7 Test events to be organised before hosting the ITU World Triathlon Grand Final. Minimum two ITU WTS events and one ITU Paratriathlon World Cup in the preceding years.

4. “THE TEAMS”:

The roles and responsibilities of the LOC and SMT are outlined below. The ITU World Triathlon Grand Final will bring a collaborative team of experts to support and deliver each event and work alongside the LOC.

4.1 The Series Management Team (SMT) will interact with the LOC event team on multiple levels. Below is a description of the SMT and their roles. Each SMT member might have additional staff that will be brought to the event to help the LOC:

a. ITU Secretary General and ITU Sport Director are responsible for the general management and supervision of the entire series.

   • Overall strategy, planning and organisation;
   • Series approvals and recommendations;
   • Coordinate host city bid process and event scheduling;
   • Event Agreement negotiation and management;
   • Series Marketing and Public Relations strategy;
   • Athlete agreements and prize money recommendations.
   • Ensure all LOC event insurance requirements;
b. Manager of the ITU World Triathlon Series as Team Leader (TL) during the on-site delivery phase:
   • Finalise naming structure;
   • Evaluation of event commercial elements during bid process;
   • ITU logo protocol;
   • Approves all commercial/advertising products such as brochures, posters, ads, web design, and merchandising;
   • Implement the ITU Branding Guidelines;
   • ITU advertising;
   • Implementation and delivery of all global contractual rights;
   • Implement Branding requirements
   • Coordinate team meetings; set agendas, record and distribute minutes;
   • Manage VIP requirements;

c. ITU Head of Operations as part of the ITU Technical Delegate team including the assigned Co-TD and the Assistant TDs. The TD team will assign specific roles and responsibilities. This team will also include the Medical Delegate and a number of International and National Technical Officials:
   • Evaluation of event technical elements during bid process;
   • Project management;
   • Primary contacts for all technical, competition and operational elements;
   • Venue and course design including measurement, permits and approvals, infrastructure integrity, aid stations, communications, contingency plans;
   • Management of the preparations of all operations and services;
   • Coordination of officials, marshals, and volunteers;
   • Manage the implementation of the applicable rules for all events;
   • Provide accreditation protocol management for the Field of Play;
   • Health and Safety management;
   • Approval of security plans;
   • Medical management;
   • Race and risk communication management;
   • Environmental management;
   • Deliver Officials’ Development Programme;
   • Elite athlete registration, briefings and training facilities management;
   • Timing and Results management;
   • Age Group technical management;
   • Oversee all LOC website information for accuracy and consistency;
   • Post-event technical reporting.

d. ITU Event Services Manager:
   • Management of global logistics and shipping;
   • Manage production and inventory of WTS supplies;
   • Approval of accommodation, offices, facilities, functions and transportation;
   • Manage Executive Board/Committee meetings and congress logistics;
   • AG athletes’ services and experience coordination and approval;
   • Manage ITU team travel;
   • Manage ITU family services.

e. ITU Sport Results Director:
   • Elite athletes’ entries management and elite start list production (including numbering);
   • Liaison with the Timing companies;
   • Age-Group registration on-site data verification;
   • Identify Series winners.

f. ITU Head of Communications:
   • Oversee all ITU Media staff on-site and be the first point of contact for all media matters (non-TV);
   • Approve all planned media facilities, media technical support and media hosting with TD and TL;
   • Request and review all LOC media plans in cooperation with the WTS TV Production Manager;
   • Develop and implement the ITU media plan for the event;
   • Coordinate athlete interviews;
   • Coordinate press services and manage SMT press team;
   • Race and risk communication spokesperson;
   • Coordinate and produce the social media content for ITU social media channels.

g. WTS TV Production Manager:
   • First point of contact for all television matters with the host broadcaster and any other relevant parties;
   • Coordination of the work of the SMT camera crew on site;
   • Coordination of the international TV production (production plan, international signal, international commentary, TV graphics);
   • Produce post-race news feed, webcast and magazine show.

h. ITU Sport Presentation Manager:
   • Oversees all sport presentation matters on-site, as approved by ITU, including facilities, equipment and run-sheets/scripts;
   • Manage the operation and delivery of ITU Event Protocols in coordination with the LOC.

i. ITU Anti-Doping Director:
SECTION A: OVERVIEW OF SERIES AND THE MANAGEMENT TEAM

4.2 LOC Team:

a. LOC Event Director:
   • Overall management and coordination of the Event;
   • Main contact person for the LOC on all important coordination activities and decisions.
b. LOC Director of Venue and Technical Operations:
   • Course selection and mapping;
   • Secure permits and prepare the safety plan;
   • Venue set-up and technical operations.
c. LOC Director of Marketing and Sponsorship:
   • Implementation of the WTS Branding Guidelines;
   • Create a LOC marketing concept for the LOC sponsors that is in keeping with the WTS Branding Guidelines;
   • Provide the LOC sponsor material for the big screen and the announcers’ scripts to the TL;
   • Provision of volunteers to assist with the installation of the branding including provision of equipment necessary for branding installation and take down;
   • Source on-site crowd entertainment features, performances and interactions.
d. LOC Media Director:
   • Main contact to ITU Head of Communications and local media;
   • Arrange pre-promotion of event;
   • Organise all press and photo media on site in conjunction with ITU Head of Communications;
   • Organise press conferences in conjunction with ITU Head of Communications;
   • Provide the ITU Head of Communications with the post-race media monitoring report.
e. LOC TV Production Director:
   • Main contact to ITU Head of Communications and WTS TV Production Manager;
   • Organise the live TV production;
f. LOC Protocol Manager:
   • Coordinate all ceremony-related requirements and protocol;
   • Oversee flag protocol;
   • Coordinate and produce all rehearsals with WTS Sports Presentation Manager;
   • Coordinate ceremony staff;
   • Coordinate LOC presenters according to requirements with WTS Sport Presentation Manager.

5. ADMINISTRATION:

5.1 Official Language:

a. The official working language of ITU is English. However other languages may be used from time to time to help with communication.

5.2 Site Visits:

a. Site visits are done prior to the Event is taking place.
b. Evaluation site visit is taking place during the bidding period in case no WTS were hosted before on the same venue/course by the same LOC. Accommodation, travel and local transportation expenses must be covered by the LOC for a maximum of 2 ITU delegates.
c. Coordination site visits will be taking place in case of a successful bid. Accommodation and local transportation expenses must be covered by the LOC for a maximum of 4 delegates from the SMT for whole duration of the visit.
d. Documentation: During the site visit, the following information should be available:
   • LOC team (organisation structure with experience of key members);
   • Environmental data (tides, weather forecast history, water quality, heat stress index, air pollution index);
   • Venue and course maps;
   • Required permits and approvals and event insurance;
   • Budget outline, including confirmed revenue streams;
   • Proposed schedule;
   • Host hotel information and facilities;
   • Marketing plans;
   • Operation plans (coordination visit only);
   • Services plans (coordination visit only).

5.3 Event Agreement:

a. The Event Agreement is required for all ITU World Triathlon Grand Finals. All provisions of the Event Agreement document are legally binding upon all LOCs that have been awarded an ITU World Triathlon Grand Final.
b. ITU has the authority to ensure the implementation and interpretation of the Event Agreement document.
SECTION A: OVERVIEW OF SERIES AND THE MANAGEMENT TEAM

5.4 Insurance:

a. Event Liability Insurance and Event Cancellation Insurance are required as per the Event Agreement.

b. The LOC shall, at its cost, insure and keep insured with a reputable insurance company, a standard public liability and property damage insurance policy to cover the risks of insurable nature of the ER and the staging of the Event and the related events for an amount not less than US$ 10,000,000. The insurance policy will name, as insured, the LOC, ITU, the Global Partners, the ITU Executive Board and Staff, the ITU International Technical Officials, and the respective LOC directors, officers, agents, volunteers, employees and contractors.

c. Event Certificate of Insurance: The official certificate of insurance, with all additional insured added, must be provided to ITU at least 60 days prior to the start of the competition.

d. Athletes’ Insurance: each athlete must acquire medical / travel insurance which offers the legal requirements for the country where the competition is being organised unless their NF has a license system including such coverage.

5.5 Scheduling:

<table>
<thead>
<tr>
<th>Activities</th>
<th>Duration (considering check-in/out procedures for Elites, U23 and Paratriathlon)</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Elite Standard Distance</td>
<td>3 hours / gender</td>
<td>Can be reduced to 2h 45min if specific transition check-out procedures applied.</td>
</tr>
<tr>
<td>U23 Standard Distance</td>
<td>3 hours / gender</td>
<td>Can be reduced to 2h 45min if specific transition check-out procedures applied.</td>
</tr>
<tr>
<td>Paratriathlon</td>
<td>5 hours</td>
<td>All medal events included within this timeframe.</td>
</tr>
<tr>
<td>Age Group Super-Sprint Distance</td>
<td>~ 4 hours</td>
<td>Decided by the TDs and the LOC based on any limitations regarding the venue and the course.</td>
</tr>
<tr>
<td>Age Group Standard Distance</td>
<td>~ 6 hours</td>
<td>Decided by the TDs and the LOC based on any limitations regarding the venue and the course.</td>
</tr>
</tbody>
</table>

a. The elite events should be hosted on two different competition days. The final competition schedule needs to be approved by the TD.

b. Specific timelines for Elite and U23 events:
   - Athletes’ lounge check-in: 1h15min to 30 minutes before the start of the event;
   - Transition Zone check-in: 1 hour to 15 minutes before the start of the event;
   - Athletes’ warm up on the FOP: 1 hour to 15 minutes before the start of the event;
   - Athletes’ introduction: 10 minutes before the event;
   - Transition zone check-out: After the last athletes passed through the transition zone on the bell lap (the bikes will be checked out by the TOs if there is another event).

5.6 Registration:

a. All the registration deadline, eligibility, entry rules can be found in the ITU Competition Rules on www.triathlon.org.

b. Entry Fees and Payment:
   - There is no entry fee for elite athletes and paratriathletes in the ITU World Triathlon Grand Final. The entry fee for other categories will be as stated in the Event Agreement.

c. Elite, U23 and paratriathlon registration will be via the ITU online system. For the Age Group registration the LOC will come up with a system to be approved by ITU.

d. For paratriathlon event, the provision of an athletes’ classification process must be considered according to the ITU Classification Rules and Regulations.

5.7 Accountability

a. The LOC is accountable for the following:
   - Compliance with the Event Agreement;
   - All contracts associated with local suppliers and sponsors;
   - Budgets, payroll, purchasing and invoicing, insurance, athlete waivers, permits and approvals, water quality test, travel visas, reporting schedule and checklists;
   - Accuracy of website content: Each WTS event has a website provided by ITU of the format cityname.triathlon.org;
   - The LOC must use this website as the primary event website;
   - The site is to be maintained in English as well as the local language(s) as required by LOC;
   - Event and race related changes and updates must be approved by the TL/TD before publishing;
   - Please contact webmaster@triathlon.org for setup.

5.8 Permits and Approvals:

The LOC must:
SECTION A: OVERVIEW OF SERIES AND THE MANAGEMENT TEAM

a. Obtain written approval for the venue, and competition courses, including swim, bike, run and transition, from all jurisdictions e.g. federal, regional, city, police etc.
b. Have ITU’s approval for all segments of the course which must be secured prior to awarding an ITU event.
c. Provide ITU with water quality tests as per the ITU Competition Rules and Event Agreement.
   • Sea and transition water: Levels of PH, fecal coliform, e-coli and toxic elements will be reported on all three reports.
   • Inland water: Levels of PH, fecal coliform, e-coli, toxic elements and blue-green algal blooms/scum (cyanobacterial) will be reported on all three reports.
d. Provide ITU with weather data, including air and water temperature, during the bid stage.
e. Provide ITU with tide timetables, where applicable, during the bid stage.
f. Ensure that all temporary structures (pontoon, grandstands, stages, gantries etc.) are approved in writing by a Structural Engineer and adhere to the local fire marshal’s code.
g. Provide proof that local hospitals and Emergency Departments are informed of the event and its associated road closures.

5.9 Reporting Schedule and Checklists:
The LOC must:

a. Be familiar with ITU schedules and checklists as outlined in the Event Organisers’ Manual;
b. Provide bi-monthly reports to the SMT prior to the event according to the relevant checklists.
c. Participate on a bi-weekly progress call organised by ITU.

5.10 SMT – LOC On-Site Meeting:

a. A series of on-site meetings will be scheduled during the week leading up to the event;
b. An agenda will be prepared by the Team Leader and the Technical Delegates;
c. Course and venue maps, branding plan, concept of course safety, staff and security operation plan including radio plan and protocol, event schedule including swim heats, medical plan, athlete services plan, contingency plans are required material for the meeting.

5.11 Event Week Meetings: The event-week meetings will be confirmed and circulated following the first SMT – LOC on-site meeting. The following meetings will be scheduled:

a. TV Production Meeting;
b. Media Management Meeting;
c. Event Design Meeting;
d. ITU Protocol Meeting, including Sport Presentation, Opening and Medal Ceremonies, VIP Services and Accreditation meeting, Final Awards Banquet Meeting;
e. Rehearsal schedule for Sport Presentation and Medal Ceremony;
f. Timing and Results Meeting;
g. Motorbike drivers’ Meeting;
h. Marine Meeting;
i. Medical Meeting;
j. Registration Meeting.

5.12 Travel Visas:
The LOC must:

a. Provide all necessary information and assistance for athletes and officials who require travel visas for entry into the host country;
b. Get the detailed travel visa information from the host country’s customs and immigration department;
c. The LOC must post the detailed travel visa information on the event website. Upon receipt of applications for a travel visa, the LOC will liaise with the athletes/coaches’/officials’ NF and ITU;
d. Not issue travel visa invitations without prior approval and confirmation that the athletes, coaches and/or officials are in good standing with ITU.

5.13 Accreditation Protocol:
The LOC must:

a. Use the standardised accreditation system, outlined in the Event Organisers’ Manual;
b. Pay particular attention to both the precise design of the accreditation, the secure zone signage, and the implementation of an effective security team to manage and control the accreditation and security on site;
c. Only accredit the approved coaches’ accreditation list that ITU will announce 5 days before the event. Only coaches listed on this list can receive accreditation wristbands. All other requests should be directed to the Technical Delegates;
d. Only accredit the approved team medics accreditation list that ITU will announce 5 days before the event. Only team medics listed on this list can receive accreditation wristbands. All other requests should be directed to the Medical Delegate;
e. The final plan and proposed accreditation cards, zone control signage and venue accreditation plan/flows must be submitted to TDs for approval 60 days in advance of the event.
SECTION A: OVERVIEW OF SERIES AND THE MANAGEMENT TEAM

5.14 Transfer of knowledge (TOK):

a. The LOC agrees that all relevant documents created for the event and approved by ITU will be shared with the future WTS Grand Final LOC’s.

b. ITU will provide the LOC all available TOK from the previous WTS Grand Finals.

6. SERVICES:

6.1 Staff and Volunteer Services:

a. The event should have adequate paid staff to meet the requirements of hosting an event of this caliber.

b. Volunteers: First recruit personal contacts of LOC committee members as they often provide the most reliable resources.

c. Specific training should be provided to:
   • Field of Play volunteers;
   • Athlete Services volunteers;
   • Medical and Anti-Doping volunteers;
   • VIP Hosting volunteers;
   • Transportation volunteers;
   • General Information volunteers

d. Volunteers should have a general understanding and awareness of all aspects of the event. Volunteers are the ‘Face’ of the event and represent the local community to the world.

6.2 Athlete Services:

a. The most important people at the event are the athletes. Their overall view of the event will be reflected not just in the race but in the consideration that has gone into anticipating their needs.

b. Basic Athlete Services to be provided by the LOC include (free of charge for the Elite athletes and registered coaches):
   • Airport Transportation: including provisions for bike transportation;
   • Athlete Services: information booths at the airport, hotels and venue;
   • Accommodation Services: adequate distribution of information on all available accommodation;
   • 300USD subsidy for each elite athlete;
   • Complimentary internet access in the host hotel: Age Group registration area and in all Elite athletes’ areas at the venue;
   • Medical services: Information provided on medical emergency services, massage and physiotherapy services;
   • Training Services: Swimming pool facilities will be required for 2 sessions daily free of charge for Elite athletes and Paratriathletes during the lead up to the Elite races. The schedule must be approved by the Technical Delegates.
   • Course Familiarisation: Access to the swim, bike and run courses for pre-event training is mandatory with adequate traffic control. There needs to be a separate plan for Age Group athletes;
   • Bike Mechanic: provide service for all competitors;
   • Uniform printing services;
   • Goody bag with event souvenirs.

6.3 VIP / Sponsor Services:

a. A VIP / Sponsor Hosting Plan must meet the following minimum requirements:
   • Complimentary scheduled VIP Airport Transportation including ITU Guests;
   • VIP accreditation should be provided to all VIP level sponsors and guests. Invitations will be issued to the on-site VIP Tent and to all social functions as per Event Agreement and the Sponsorship and Event Design Guide;
   • VIP Transportation to race venue and to social functions as required;
   • Sponsor Package and/or special event souvenir should be packaged for all sponsors and VIPs and must include a detailed Event Schedule;
   • Special consideration must be given to any planned presentations to sponsors and/or VIPs and should be approved by the TL.

6.4 Spectator Services:

a. Road closures will often require extra considerations for getting spectators on site. It is essential that access information is well communicated to spectators. A public awareness campaign must be part of the event planning process and must be approved by the TD;

b. Information volunteers should be located at all major site access points and in the central hub area of the venue.

6.5 Technical Officials Services:

a. ITU will provide the NF/LOC with a list of local technical officials 45 days before the event. The list will include all Field of Play officials, as well as the chief race official. The list is subject to change by ITU;

b. Minimum number of TOs per event determined by the TDs;

c. Responsibility of the LOC/Host NF to cover the expenses of the National Technical Officials and offer rooms for self-funded officials as per Event Agreement.

d. The LOC will provide all Technical Officials and SMT with the same race package as given to athletes, i.e., event t-shirt, tickets to all events, and sponsor gifts.
SECTION B: TECHNICAL AND VENUE OPERATIONS

1. TECHNICAL OPERATIONS:

1.1 General:

a. This section combines the duties of the Technical and Venue Operations. All these operations should cover all official events with different requirements.

b. Registration:
   - Age Group Athletes, Paratriathletes and Coaches/Managers;
   - Elite, U23 Athletes and Coaches;
   - Team Medical.

c. Briefings:
   - Elite Athletes;
   - Elite Coaches;
   - U23 Athletes;
   - Age Group Team Managers;
   - Paratriathletes;
   - Paratriathlon Coaches
   • Recorded briefings for Age Group athletes (standard distance and super-sprint)

1.2 Venue Operations:

The Venue must be presented in a manner that showcases an event of World Championship status. A detailed description of the required venue layout, equipment list and procedures can be found in the Event Organisers’ Manual. The venue includes:

a. The start, the transition and finish area in a World Triathlon Series design;

b. Large area for grandstand;

c. A broadcast compound (including commentary positions), big screens and leaderboard;

d. Elite athletes area;

e. Age Group athletes area;

f. Expo and spectators area;

g. Operations area (including Sport Presentation and Timing/Results).

1.3 Field of Play:

a. Number and length of laps:
   - Elite: 1500m swim (2 laps, preferably, 1000m + 500m) / 40km bike (6 to 10 laps) / 10km run (3 to 4 laps)
   - U23: 1500m swim (2 laps, preferably, 1000m + 500m) / 40km bike (6 to 8 laps) / 10km run (3 to 4 laps)
   - Age Group Standard Distance: 1500m swim (1 lap) / 40km bike (1 to 2 laps) / 10km run (1 to 2 laps)
   - Age Group Super-Sprint Individual Time Trial: 400m swim (1 lap) / 10km bike (1 to 2 laps) / 2.5km run (2 laps)
   - Paratriathlon: 750m swim (1 lap) / 20km bike (1 to 4 laps) / 5km run (1 to 2 laps)

b. Swim Course:
   - The number of waves, the number of athletes per wave and the time differences between the waves will be determined by the TD in consultation with LOC;
   - The swim start area will be defined by hard crowd control fencing (minimum 1 meter high) providing the competitors with a buffer from media and spectators;
   - The warm-up area for age group athletes and paratriathletes must be separate from the swim start and race course;

   - Start Platform:
     (i) A stable platform for a dive start is required for the elite events;
     (ii) A platform beach start is acceptable only if there is no possibility of a dive start;
     (iii) Swim pontoon/platform specifications are a minimum of 60m x 3m;
     (iv) The height of the pontoon is ideally between 0.2m and 0.5m;
     (v) The space per athlete must be a minimum of 0.75m;
     (vi) The swim platform will be completely covered in “blue” carpet.

   - A pre-start line must be no more than 0.5m from the edge of the pontoon/platform and must be approved by the TD;
   - The Age Group standard distance start will be an in-water start and the Age Group super-sprint distance start for the time trial, should be a run in ramp unless otherwise directed by the TD;

   - The paratriathlon start will be in-water;

   - Turn Buoys:
     (i) The turn buoys are, 1.7m in diameter and not less than 2.5m in height;
     (ii) An ‘Olympic-style’ banana buoy is preferred at each turn measuring 5m long x 1m diameters;
     (iii) Sight buoys should be 1,2m long x 0.7m diameter.

   - The swim exit is at least 5m wide, and can be either a ramp or steps. The gradient of the exit must be approved by the TD;

   - Water Quality:
     (i) The water quality test results must be submitted to the Technical Delegate as per the ITU Competition Rules;
     (ii) Additional test should be provided upon the TD’s request;
     (iii) Water Quality Tolerance Limits can be found in the ITU Competition Rules.

   - Swim Course Personnel: a detailed description of required personnel, equipment and procedures can be found in the Event Organisers’ Manual.
SECTION B: TECHNICAL AND VENUE OPERATIONS

1.4 Transition Area:
   a. Elite/U23/ Paratriathlon Transition:
      • Minimum width: 10m;
      • Minimum length: 60m;
   b. Age Group Transition: Minimum 3m²/athletes;
   c. Paratriathletes pre-transition area:
      • Required for safely removing these athletes from the swim course;
      • Swim-exit handlers should be provided by the LOC;
      • A detailed description of required paratriathlon personnel, equipment list and procedures
can be found in the Event Organisers’ Manual.
   d. Individual bike racks are mandatory for elite athletes;
   e. Carpet is required in the elite transition area and must extend to the swim exit. The TD will
      approve the areas of the transition area that must be carpeted for the age group athletes.
   f. A detailed description of required transition area personnel, equipment list and procedures
can be found in the Event Organisers’ Manual.

1.5 Bike Course:
   a. General requirements:
      • Preferred width: 6m;
      • Must be secure and totally closed from traffic for all categories;
      • The road surface must be hard, smooth and without debris or other hazards;
      • The course should avoid railroad tracks, bridges with gates, drawbridges etc.;
      • Separation of a two-way traffic on the same road shouldn’t be considered;
      • Hard fencing is required:
         (i) In high-traffic areas;
         (ii) On the road leading in and out of transition at least 400m and on all corners.
   b. A detailed description of required bike course personnel, equipment list and procedures can
      be found in the Event Organisers’ Manual.

1.6 Wheel Station:
   a. A minimum of two wheel stations must be provided;
   b. One of the wheel stations have to be equipped by the LOC with bike racks and wheels;
   c. Detailed description of required wheel station personnel, equipment list and procedures can
      be found in the Event Organisers’ Manual.

1.7 Lap Counting:
   a. Lap verification is needed to control the bike and run laps;
   b. The lap counting board should be visible to the announcer and should be 1m high x 0.75m
      wide;
   c. This board will indicate the number of laps remaining for the race leader.

1.8 Run Course:
   a. General requirements:
      • Course width: preferably 3m;
      • For all competition categories the entire course must be secure and completely closed to
        traffic;
      • The road surface must be hard, smooth and without debris or other hazards;
      • The course should avoid railroad tracks, bridges with gates, drawbridges etc.;
      • Hard fencing is required:
         (i) In high-traffic areas;
         (ii) On the road leading in and out of transition at least 400m and on all corners.
   b. Age Group/ Paratriathlon:
      • Hard fencing is required:
         (i) In high-traffic areas;
         (ii) On the road leading in and out of transition at least 400m;
         (iii) All corners.
   c. A detailed description of required run course personnel, equipment list and procedures can
      be found in the Event Organisers’ Manual.

1.9 Aid Stations:
   a. Swim Exit: an aid station is required at the swim exit for age group competitions;
   b. Bike Course: There are no aid stations on the elite bike course. One aid station may be
      required at 20km point of the age group and paratriathlon bike courses.
   c. Run Course: Aid stations should be a maximum of 1.25km apart throughout the run, unless
      more are requested by the TD.
   d. Dimensions: Aid stations should 30m in length for elite competitions and 40m in length for
      age group and paratriathlon competitions;
   e. Elite competitions: sealed water bottles must be provided as follows: 2x300ml water bottles
      per athlete per aid station per lap;
   f. Age Group and Paratriathlon competitions: water and sport drink is required;
SECTION B: TECHNICAL AND VENUE OPERATIONS

**g.** Clear and visible signage indicating the specific drinks area is required. The tables should be separated and clearly marked.

**h.** The aid station in the finish/recovery area must offer different kinds of drinks, nutrition bars, fruit and other products as an appropriate athlete service.

**i.** In case of Anti-Doping control at the age group/paratriathlon events, the LOC needs to provide sealed drinks and water bottles.

**1.10 Penalty Box:**

**a.** The number and exact placement of both bike and run (where applicable) penalty boxes will be determined by the TD;

**b.** The area must be secured.

**c.** Clear signage, 2m high, needs to be marked at the area and at an advance position 50m to 100m before the penalty box.

**1.11 Finish Area:**

**a.** Must be completely secured with a solid fence a minimum of 1m tall;

**b.** Finish Chute: no less than 100m in length and 5m in width;

**c.** Photo Stand: 15m behind the finish line. A 5 tier stand 3m to 4m in width must be placed directly behind the 15m clean finish area.

**d.** The recovery/medical area must be within 50 m and must be clearly separated from the media area.

**e.** Mixed Zone: must be secure and adjacent to the finish area with sufficient space for media to interview athletes;

**f.** Spectator grandstands are required.

**g.** Big screens and scoreboard should be in full view of the grandstands.

**h.** A covered raised platform for sport presentation should be close to the finish area to provide adequate view of the entire stadium area and the big screen for race announcers and race management.

**i.** The podium must be set up so the medal presentations take place while the race is still in progress.

**j.** A detailed description of finish area design, requirements, personnel, equipment list and procedures can be found in the Event Organisers’ Manual.

**1.12 FOP signage:**

**a.** The LOC will provide the following signs according to the ITU specifications, but limited to:

- Directional;
- Pedestrian crossing points;
- Wheel stations;
- Aid stations;
- Km markers;
- Littering zones;
- VI free leading zones;
- Penalty box;
- Coaches areas.

2. MEDICAL MANAGEMENT:

**2.1** A complete medical plan must be prepared by the LOC Medical Director, submitted to ITU and approved by the ITU Medical Delegate. The medical plan should include:

**a.** FOP medical plan;

**b.** Medical Centre layout;

**c.** Medical Centre equipment;

**d.** Number of medical personnel;

**e.** Number of ambulances and their location;

**f.** Emergency procedures;

**g.** Hospital information;

**h.** Procedures to involve foreign medical team personnel.

**2.2** A detailed description of required medical personnel, equipment list and procedures can be found in the Event Organisers’ Manual.

**2.3** In case of accident the adequate transportation of the athlete from the course to the hospital is the responsibility and cost of the LOC.

3. DOPING CONTROL:

**3.1** In-competition: Provision must be made to provide Anti-Doping tests at the event.

**3.2** WAD Code: The ITU Anti-Doping Rules comply with WAD Code. See [www.triathlon.org](http://www.triathlon.org) for the ITU Anti-Doping Rules and other relevant information. The tests must comply with the ITU Anti-doping Rules and the WAD Code using an ITU approved Sample Collection Agency and a WAD accredited laboratory.

**3.3** Doping Control Facilities: Doping control facilities for in-competition (following the event) and out-of-competition (prior to the event) must be provided. An on-site, in-competition facility...
SECTION B: TECHNICAL AND VENUE OPERATIONS

must be ready for use immediately following the event. As well, an out-of-competition facility needs to be ready for use a specified number of days before the event at the same location as the athletes’ briefing.

3.4 Number of Doping Control Tests:

a. For ITU World Triathlon Grand Final events, 50 urine tests and 10 blood tests are required in accordance with the ITU Anti-Doping Rules and the event agreement. At a minimum, the test menu should be according to the percentages in the Technical Document for Sport Specific Analysis (TDSSA).

4. FACILITIES, EQUIPMENT AND VOLUNTEER REQUIREMENTS:

4.1 Facilities: the following are required

- Athletes’ Lounge;
- Recovery Area;
- Medical Centre;
- Volunteers’ Tent;
- Venue Control Centre;
- Technical Officials’ Lounge;
- Media Centre;
- Timing and Results Office;
- Sport Presentation booth;
- ITU Media Room;
- VIP and VVIP Area;
- Spectator Grandstands;
- Clean & Waste Compound;
- Logistics/Operations Compound;
- Operations Office;
- Classification Rooms (as per ITU Classification Rules and Regulations).

4.2 Communications: Power, internet, IT support and communication equipment will be provided by the LOC that will enable WTS personnel to cover the event.

a. The LOC should be aware of the cost associated with Timing and Communications (radios, phones) as described in this document, the event agreement and Event Organisers’ Manual.

b. The timing and results service company must be approved by ITU.

4.3 SMT Office: LOC will provide as follows:

a. Room size: minimum 50m²;
- Available from Tuesday before the event to Monday after the event (seven days);
- High-speed internet connection;
- Printer and photocopy machine;
- Refreshments;
- Tables and chairs for 15 people.

4.4 Athletes briefing:

a. A separate athletes’ briefing should be provided for each competition category: elite; paratriathlon; and age group. An additional coaches’ meeting may be requested by ITU.

b. Room Size and Set-up:
- Auditorium for 200 people;
- 4 tables for athlete registration and check-in;
- Paper and pens;
- High-speed internet connection;
- Refreshments for all athletes;
- Head Table with 6 chairs and a speaker’s stand;
- PA system and AV projector.

c. Timetable: Two days before the event from 4pm-7pm.

4.5 On-site Media office:

a. Adjacent to the finish area;

b. Access to live video feed;

c. A stable high-speed wireless internet connection available venue wide.

d. Tables and chairs for 6 people;

e. Refreshments;

f. Provision for meal service during working hours during event preparation and throughout the competition days.

4.6 Press Centre:

a. Size and Location: on-site for general media that is a minimum of 100 m²;

b. Equipment:
- A stable high-speed internet connection and router / switch with enough ports for the expected number of media;
SECTION B: TECHNICAL AND VENUE OPERATIONS

- High-speed printing facility and photocopier;
- Notice board;
- Refreshments;
- TV with live video feed.

4.7 On-site SMT office:

a. A stable high-speed wireless internet connection available venue wide;
b. Tables and chairs for 10 people;
c. Printer and photocopy machine;
d. Refreshments;
e. Provision for meal service during working hours during event preparation and throughout the competition days.

4.8 LOC Race Information and Accreditation Office:

a. Size, Location: On-site and open from Thursday before the event to Monday after the event;
b. Equipment:
   - Phone and high speed internet connection;
   - Printer and photocopy machine;
   - Refreshments.

4.9 Volunteer Requests:

a. The LOC should provide the following volunteers to the SMT:
   - 3 volunteers to assist the ITU Head of Communications;
   - 4 volunteers at the elite athletes’ registration for briefing and race day.

5. TRANSPORTATION PLAN:

5.1 The Plan: A coordinated transportation plan, must be provided, at the LOC cost to and from the closest International airport:

a. For elite athletes and support team;
b. For ITU Executive Board members, Congress Delegates and ITU Guests
c. For SMT/ITU Staff;

5.2 Other transportation: must be provided as follows for ITU World Triathlon Grand Final Staff:

a. 8 bicycles/scooters for easy transportation between hotel and venue or other means of transportations as agreed with the SMT;

b. In case the venue is not in walking distance, cars/minivan to be agreed and provided;
c. 5 motorbikes with drivers for the elite events:
   - ITU photographer (1);
   - Pool photographer (1);
   - ITU Technical Officials (3);
   - The number of motorbikes with drivers that the LOC should provide for the age group competitions will be determined by the ITU TD following the site visits;
   - Motorbikes for the live TV broadcast is not considered among the five motorbikes above.
d. A total of 6 boats need to be provided to the SMT by the LOC for the swim course operations:
   - ITU Technical Officials (3);
   - Media (1);
   - Broadcasters (2);
   - The number of boats with drivers that the LOC should provide for medical and rescue will be determined by the ITU TD following the site visits.

Note: The numbers required above may be changed by ITU according to the distance from the host hotel to the venue or the complexity of the courses and the competition schedule.

6. ACCOMMODATION REQUIREMENTS:

6.1 ITU Host Hotel Accommodation:

a. Total room nights required for ITU Executive Board, SMT/ITU Staff and Guests:
   - Single room: 242
   - Double/twin room: 219
b. Total room nights required for the Technical Officials:
   - Double/twin room: 150
c. The entire SMT and ITU officials should be accommodated in the same hotel, preferably in walking distance of the venue.
d. The allocation of the rooms and the length of stay may be different within the total number of room nights.
e. Breakfast needs to be included in the room nights.
f. ITU will provide information regarding the accommodation to the LOC.

6.2 Sport Expo Facilities:

a. Optionally two 3mx3m booth spaces must be provided free of charge to ITU.
b. The spaces must be uniformly laid out and approved by the TL. It will include the following:
   - Power and water source provided;
SECTION B: TECHNICAL AND VENUE OPERATIONS

- Flooring (depending on the venue surface);
- Internet facilities;
- 24 hours Security.

7. COMMUNICATION PLAN:

7.1 The Link: The Communication Plan provides the critical link between the various functional areas of the race to ensure smooth and safe movement of athletes, spectators, and vehicles.

7.2 Radios: Nine radio talk groups will be used on race day. Other support groups will use their own radio frequencies:
   a. Technical Officials talk group;
   b. Executive talk group;
   c. Medical talk group;
   d. Race talk group;
   e. Security talk group;
   f. Announcer (Sport Presentation) talk group;
   g. ITU Media talk group;
   h. Television talk group;
   i. Site talk group.

7.3 The final radio distribution plan will be approved by the TD.

7.4 The LOC should provide to the SMT with 35 radios in 3 channels and 15 cell phones with 35 sim cards including data.

8. TECHNICAL OFFICIALS EQUIPMENT:

8.1 The LOC will provide the ITO team with the following:
   a. Mountain bikes: 6 mountain bikes with 6 helmets;
   b. Measuring Devices: Thermometer; wheel measurer; tape measurer;
   c. Flags: 10 red flags (60cm x 30cm);
   d. Horns: 3 manual air horns, 1 electronic start system;
   e. Lap Board: One board per lap x 2 sets, Bell;
   f. Notice board in the Athletes Lounge;
   g. Whistles: 30;
   h. Vehicles: 1 vehicle available for the TD and the ITO Team;
   i. Still cameras and 3 tablets. A TV screen will be available for reviewing the footage and sound from the video camera;
   j. Bike measurement tool;
   k. Penalty Box board with numbers;
   l. Handle bar check board;
   m. Handcycle measuring tool;
   n. Paratriathlon slings;
   o. 3 t-shirts per Technical Official;
   p. Finish tape;
   q. Mount/dismount line sticker;
   r. Miscellaneous:
      (i) Stationery for the athletes’ check in and registration;
      (ii) Start lists - 25 copies;
      (iii) Duct tape;
      (iv) Extra stickers for bikes and helmets;
      (v) Felt pens and regular pens;
      (vi) Sewing kit;
      (vii) Official’s notice board (white board) and dry markers;
      (viii) Competitor’s agreement - 180 copies,
      (ix) LCD projector and screen;
      (x) Sponges and towels.

9. ATHLETES’ EQUIPMENT:

9.1 LOC will provide for the athletes:
   a. Swim caps for Age Group and Paratriathlon;
   b. Age-Group bike/helmet stickers;
   c. Age-Group bib numbers;
   d. Age-Group body decals and wetsuit decals;
   e. Age-Group finisher medals.

9.2 ITU will provide the following equipment for the elite athletes:
   a. Elite/U23/Paratriathlon bike/helmet stickers;
   b. Elite/U23/Paratriathlon body decals;
   c. All podium medals;
   d. Paratriathlon bib numbers;
   e. Elite and U23 swim caps.
SECTION B: TECHNICAL AND VENUE OPERATIONS

10. CATERING REQUIREMENTS:

10.1 Meals and refreshments: will be provided for the SMT and ITOs by the LOC at the rate of 1 meal for every 6 hours that they will work at the venue area. The provided services will be approved by the TD.

11. CONTINGENCY PLAN:

11.1 Required for each of the following situations:

a. Delay: An event is considered delayed if it does not start at the scheduled start time or is interrupted after the scheduled start;
b. Postpone: An event is considered postponed when it cannot be completed within the scheduled session (or an extended session) and is rescheduled to another session on the same day or another day;
c. Cancel: An event is considered cancelled when it is delayed or postponed and cannot be restarted or rescheduled.

12. OPERATION PLANS:

12.1 The following operations plans will be checked by the SMT leading up to the event:

a. Accreditation: Access control plan, Accreditation plan, Dot plan;
b. Athletes’ services: Accommodation plan, Athletes’ guide, Registration materials, Registration plan, Training plans, Training sites booking, Transportation plan;
c. Bike/Run: measurement certificate, operational maps, road surface reconstruction plan, route risk assessment plan, route signage plan, traffic management plan;
d. Communication: Communication plan, VCC operation plan; Crisis communication plan;
e. Anti-Doping control: Anti-Doping control plan;
f. General: Budget, Catering plan, contingency plan, Daily competition activities schedule, Equipment list, insurance certificate, project plan / critical path, provisional schedule, waves calculation;
g. Marketing: Branding plan;
h. Media/TV: camera plan, media operations plan;
i. Safety: cold/heat stress conditions preparations, competition medical management, evacuation plan, Health & safety plan, medical plan, water quality. Weather updates;
j. Spectator: spectator services/ spectators’ guide;
k. Sport presentation: sport presentation plan, sound system plan;
l. Staffing: LOC structure, Staff training plan, Volunteer distribution plan, Volunteer rostering;
m. Swim: marine plan, swim layout/depth measurements, tide timetables;
n. Timing: timing plan;
o. ITOs: Assignments, daily run sheet, Moto requirement plan, ITOs’ newsletter, ITOs services;
p. TZ: transition zone set up plan;
q. Venue: build in plan, cables plan, FF&E distribution plan, site plan, venue map, way finding signage plan;
r. VIP: VIP services plan.

13. RISK ASSESSMENT:

a. ITU will go through risk assessment analysis with the LOC 6 months prior to the event, 2 months prior to the event and 1 day before the event.
b. During this assessment they will check the potential issues and the responses to those.
SECTION C: ITU EVENT PROTOCOLS
ARTICLE II.
ITU has Event Protocols that provide a framework and guidelines for all elements of presentation for ITU events. This section includes the following requirements from the overall Event Protocols:

1. ITU SPORT PRESENTATION:
1.1 This section deals with presenting the sport action at the competition venue. It is designed to outline the ideal situation where there is a live TV broadcast. It can be modified for events with less television but must be done in consultation with ITU:

a. Sport Presentation is what transforms a great competition into a great show for the spectators at the venue and the broadcast audience, both on television and live via the internet.

b. The Sport Presentation Team (SPT) should present the excitement of the competition from the moment the athletes enter the stadium to the closing ceremony. The spectators should be entertained by inspiring the emotion of the competition while at the same time showcasing the culture of the host nation/host city.

c. Sport Presentation involves:
   - Information Delivery: competition schedules; athlete bios and current rankings; triathlon background; host city interesting facts; venue information -food services and transportation, weather updates, etc.;
   - Entertainment Factor: Having a highly interactive MC can greatly enhance the entertainment of the spectators through prize giving, quizzes, and general crowd motivation, ie music and cheering. Live entertainment for Opening and Closing ceremonies and in-between bike laps is highly recommended. A well-planned music selection enhances the mood of the competition, the emotion of the moment and the involvement of the spectators.

d. To achieve the highest quality sport presentation, a clear plan must be developed to ensure everything is ready for the “show”. This includes:
   - A creative and energetic sport presentation team that includes a producer, announcers, an audio operator, video-board and scoreboard operators, a protocol manager, a floor/entertainment manager; volunteers / spotters, SP camera operator and assistants.
   - Good information and knowledge has to be acquired prior to the event to be able to function as an information source during competition.
   - Experienced sport announcing specialists that are integrated into the pre-planning.
   - All information channels (to timing and results, competition management, technical operations, protocol) have to be prepared and well managed to maintain functionality and the process of information distribution.

1.2 Checklist:

a. Contractors:
   - Audio;
   - Video;
   - Music DJ;
   - Announcers: minimum 2, 1 English speaking.

b. Sport Presentation Unit:
   - A secure all-weather structure;
   - All contractors and SP team must be located together; including: audio; video (big screen); DJ, announcers; and ITU Sport Presentation Manager;
   - Good view of field of play and podium;
   - TV with preview of the big screen signal;
   - Commentator Timing Information System (CIS)

c. Audio:
   - 8 input mixer minimum;
   - 2 * wireless microphones or headsets. Shure UC series (or similar quality) with long range aerial:
   - 2 * wired microphones in SP booth.
   - Speakers (spots on stands preferred to line array).

d. Video:
   - Video mixer & Operator;
   - Camera and operator plus 1 fixed finish line camera;
   - If camera is cabled, Cable drops at finish line(s), transition(s), swim start, podium;
   - Dirty video feed from broadcaster; with graphics;
   - TV (playback monitor; director announcers view);
   - Big Screen minimum size of 20 m2, 16:9.

e. DJ:
   - Local ethnic / cultural music, if appropriate;
SECTION C: ITU EVENT PROTOCOLS

- Tracks of various tempos.

f. Timing Feed (CIS):
- Laptop with timing information and a tablet for the results at medal ceremonies;
- Announcer timing point 50m before the finish for age group competitions.

g. Communication:
- 3 or 4 radios with in-ear pieces. 1 for each announcer and Director, or if possible an announcer intercom e.g., Clear-Com AB-100 plus 1 radio.

h. Meetings:
- Contractors’ Meeting before venue setup, such as the Wednesday or Thursday before the event;
- Announcers Meeting on the Wednesday or Thursday before the event;
- Swim Start Rehearsal with announcers the Friday before the event;
- Medal Ceremony Rehearsal with announcers, audio, DJ, medal bearers on the Friday before the event.

i. Sponsor Material:
- LOC sponsor videos and graphics that the ITU Sport Presentation Manager has received from the LOC;
- Sponsor scripts for the announcers in the local language.

j. Ceremony:
- Podium;
- Flags for each country with multiple flags for countries with multiple athletes;
- 2 or 3 nicely dressed medal and flower bearers;
- 8 bottles of champagne for the Elite athletes;
- 48 bouquets of flowers for the Elite, U23 and Paratriathletes;
- Decorative presenting trays to carry medals and flowers (2);
- Small dressed table close to podium.

c. Both LOC Announcers should be experienced live announcers, have good knowledge of the athletes and be well versed in ‘ITU’ triathlon.

d. In countries where the local language is other than English, one of the commentators must be fluent in English and do all of the technical announcements.

e. The ITU Team Leader must approve the LOC Announcers.

2. ITU ANNOUNCERS PROTOCOL:

This section outlines the selection, approval and requirements for event announcers:

2.1 Announcer Selection and Appointment Criteria: For ITU World Triathlon Grand Final, announcers need to be appointed according to the following criteria:

a. The LOC is requested to recruit at least two LOC Announcers.

b. SMT strives for gender equity when selecting LOC Announcers. Ideally, one man and one woman are preferred.

c. The LOC Announcers should be experienced live announcers, have good knowledge of the athletes and be well versed in ‘ITU’ triathlon.

d. In countries where the local language is other than English, one of the commentators must be fluent in English and do all of the technical announcements.

e. The ITU Team Leader must approve the LOC Announcers.

2.2 Preparing the Announcers Script:

a. Pre-event communication via email and Skype call meetings are required to ensure all parties are familiar with, and are in agreement with the ITU Sport Presentation Manual.

b. A series of Sport Presentation meetings must be scheduled during race week which includes:
- Meeting of entire presentation crew (as listed in the ITU Sport Presentation Manual) with the TL;
- Medal ceremony protocol meeting and rehearsal;
- Athlete introduction protocol meeting;
- Final banquet meeting.

c. Some Considerations:
- The competition time schedule, including warm-up times.
- The contractual requirements of the LOC sponsors in terms of announcer recognition.
- The list of ITU and LOC special guests (VIPs) with their exact titles and appropriate way of addressing those individuals, e.g., Your Worship Mayor Coleman, or Your Worship, The Lord Mayor of London, etc. Adding relevant accomplishments of those individuals can also be considered.

• Interviews:
  (i) Planned Interviews should be pre-recorded and scheduled during times when there is no live action on the screen.
  (ii) On-site interviews with athletes, sponsors, VIPs should be scheduled at pre-arranged times in the script.
- Silence/no-talk time: Appropriate use of silence allows the event to ‘breathe’ and the sound and ambience of the race action to take center stage.
- Spectator engagement activities with giveaways and quizzes.
- Strategic use of specific music selections that intensifies the emotion of the competition and the excitement of the spectators. The culture of the region should be included in this part of presentation.
SECTION C: ITU EVENT PROTOCOLS

3. ITU ATHLETE INTRODUCTION PROTOCOL:

3.1 Introduction:

a. The ITU Sport Presentation Manager will implement the athlete introduction protocol, which has been carefully planned with the SMT and TV Director, ensuring full consideration for the competition rules and all broadcast and television requirements.

b. The ITU Sport Presentation Manager will rehearse and time the announcement with the appointed announcer. The accuracy of the timing of the introduction is a very crucial element when there is a live TV broadcast timed to commence at an exact time. The TD will play a crucial role in assisting the presentation team in managing the timing of the competition start.

3.2 Timeline:

a. Fifteen (15) minutes before race start: athletes will be called to the pre-start area or call room.

b. Once in the pre-start area/call room, technical officials will line the athletes up by number.

c. Five to seven (5 to 7) minutes before race start: The time varies depending on distance from pre-start area/call room to swim start and the number of the athletes. The TD will inform the TL that the athletes are ready to be introduced.

d. Prior to introducing the athletes, the announcers must remind spectators that no horns or whistles can be used while the introductions and start is in progress. They also need to be asked to remain silent until after the start of the race.

e. When the athletes have all been introduced, the announcer ends the start duties. The announcer must remain silent until after the start as detailed in the prepared script.

f. As soon as the athletes are lined up, the start-line officials raise their flags and the starter says “On your Mark”, followed by the start horn.

g. If it is a clean start, the official’s microphone will be returned to the announcers. If there is a false start, the starter will give further instructions to the athletes according to the start-procedure outlined in the ITU Competition Rules.

h. Bad Weather: when conditions are bad and in order to prevent hypothermia, the start protocol will be condensed to speed up the athletes’ transition from swim warm-up to start. This will be done in consultation with the TD.

4. ITU MEDAL CEREMONY PROTOCOL:

The ITU World Triathlon Grand Final has a well-established Medal Ceremony Protocol. The LOC Protocol Manager must understand the ceremony logistics and ensure there is a full rehearsal.

4.1 Key Logistics:

a. Podium Specifications: The center standard should be the highest (0.75m x 1m x 1m), with the one of the left slightly lower (0.5m x 1m x 1m) and the one on the right the lowest (0.25m x 1m x 1m). The podium should be wheelchair accessible. For the full design and dimensions see Event Organiser Manual;

b. Backdrop Specifications: see WTS Brand Guidelines;

c. Carpet Specifications: the podium steps will be completely covered in blue carpet. A carpet 2m x 10m will be in front of the podium;

d. Flag positioning and standards: The center standard should be the highest, with the one on the left slightly lower and the one on the right the lowest. The athletes should not have to turn more than 45° to look at the flags. The flags have to be visible for the VIPs;

e. The LOC is responsible to ensure that they have flags of each country of participating athletes. Provision must be made for multiple winners from one country;

f. The podium must be set up away from FOP to accommodate the broadcast of the ceremony while the race may still be in progress;

g. Presentations must be ready to proceed within 5 minutes of the winner finishing. This is to accommodate live TV.

4.2 Medal Ceremony Presenters:

a. In choosing the ceremony presenters, the following protocol order should be adhered to:
   • The highest ranked ITU officer present at the event;
   • ITU title sponsor representative (if present);
   • LOC highest ranked political figure;
   • LOC sponsor representative (if desired by LOC).

Note: If an IOC member is present they take priority in consultation with the highest ranked ITU Officer.
SECTION C: ITU EVENT PROTOCOLS

4.3 Series Trophy:

a. In addition to the medal and flower presentation, a representative of the title sponsor will present a trophy to the leaders of the ITU World Triathlon Series, who may or may not be the podium winners.

b. The presentation to the series leader will take place directly after the presentation of the first three athletes of the race. For the series leader presentation, the first three have to leave the podium.

c. Final list of Presenters: The highest ranked ITU Officer present will meet with the TL 24 hours prior to the first event to finalise the ceremonies presenters. They will create a table similar to the following with the names of the presenters and ensure the ITU and LOC people responsible for protocol are informed. The proposal of the LOC presenters should be sent to the ITU Officer and the TL two weeks prior to the event with the presenters' exact title.

d. Presenters for a World Triathlon Grand Final:

<table>
<thead>
<tr>
<th>Medal Presenter</th>
<th>ITU choice</th>
</tr>
</thead>
<tbody>
<tr>
<td>Flowers Presenter</td>
<td>LOC choice</td>
</tr>
<tr>
<td>Trophy Presenter(s)</td>
<td>Ranking Sponsor choice</td>
</tr>
<tr>
<td>Champagne Presenter(s)</td>
<td>LOC choice (1st, 2nd) – ITU choice (3rd)</td>
</tr>
</tbody>
</table>

5. Note: The order is changeable in consultation with TL.

5. ITU VIP HOSTING AND CEREMONY PROTOCOLS:

5.1 This section outlines the WTS strict VIP protocol as it pertains to all official functions.

a. A VIP guest list will be created and agreed to by ITU and the LOC. A formal written invitation will be supplied by ITU and sent to guests under the signature of the ITU President.

b. The LOC will provide SMT with the exact time schedules for each VIP event.

c. An RSVP management system will be agreed to between SMT and LOC.

d. Important VIP guests to be included are:
   - The highest ranked local politicians, e.g., the Premier, the Mayor; The Head of Tourism authority and any other key political figures;
   - Representatives of the National Olympic Committee;
   - ITU Executive Board members;
   - The National Federation President and Secretary General;
   - Top level sponsors of ITU and the LOC;
   - ITU Senior staff and the Technical Delegate(s) for the event;
   - Others as mutually agreed between ITU and LOC.

5.2 VIP Meet and Greet Protocol:

a. ITU and the LOC protocol managers will agree on a gathering place for VIPs at each function where a host or hostess can introduce and greet the guests.

b. Refreshments should be available and served in this area.

c. If accreditation cards have not been provided, name tags should be available. The VIP’s given name should be on the first line in font 16 and the family name on second line in font 14. The person’s title should be on third line in font 14.

d. The WTS logo and the ITU logo must be on the name cards.

e. Guests scheduled to speak should be given ample advance notice and briefed on the programme for the particular function.

f. An event souvenir or ITU pins may be given to acknowledge their attendance.

5.3 ITU Gift Giving Protocol:

a. ITU will provide a gift for the LOC and the Host City.

b. If the LOC wishes to reciprocate, the details of the gift and the recipients should be agreed on in advance.

c. Generally the gift presentation will take place at the Closing Ceremony.

5.4 Transportation Protocol:

a. Transportation arrangements must be made to take WTS guests to and from the various functions.

b. The ITU President and ITU Secretary General should be assigned a personal driver (or car).

c. Parking instructions and parking passes, if suitable, should be provided to all guests who may be using their own transport to get to the particular venue.

5.5 Flag Protocol:

a. The LOC must make arrangements for country flags well in advance of the events. Country flags can sometimes be secured from the government protocol office; otherwise they have to be purchased.

b. The TD will advise the LOC of cases where there could be more than one athlete from the same country on the podium.

c. The setup of the flags for the venue will be place in the following order from left to right:
   - Host country;
   - Alphabetical country order;
   - ITU Flag;
   - IOC Flag (if available).
SECTION C: ITU EVENT PROTOCOLS

6. THE SPORT PRESENTATION TEAM: ROLES AND RESPONSIBILITIES:

6.1 Pre-planning:
   a. Liaise with Venue Manager to ensure correct equipment is ordered and installed as required;
   b. Liaise with entire sport presentation team: plans, meeting, schedules;
   c. Liaise with the following LOC personnel: Volunteer Manager; Protocol Manager; Director of Marketing and Sponsorship;
   d. Liaise with the Live Entertainment Manager;
   e. Liaise with Manager of Timing and Results to ensure the correct equipment and information is available to presentation team;
   f. Liaise with the Video Screen Operator;
   g. Creates all scripts and ensures that the entire presentation team is familiar with the script and their particular role within the script;
   h. Ensure that all team members are appropriately attired;
   i. Plan race day meal services and beverages;
   j. Ensure bathroom facilities are conveniently located;

6.2 Schedules rehearsals and sound checks:
   a. Competition days:
      • Controls the Announcers and cueing;
      • Cues Announcers;
   b. Cues Audio, Video and Scoreboard Operators;
   c. Cues athlete introduction;
   d. Cues victory ceremonies;
   e. Creates cue sheets in consultation with Competition Manager.

6.3 Announcers: (see “Announcers Protocol” in this document)
   a. Provide the main source of information delivery and announcements to athletes and coaches;
   b. Informs, guides and adds excitement to the spectators’ experience;
   c. Recognise sponsors and dignitaries as per script provided by LOC;
   d. Work with ITU Sport Presentation Manager to creation the detailed scripts;
   e. Pace the competition through its various stages including athlete arrival at venue, warm up, athlete introductions, timing and results, etc.

6.4 Master of Ceremonies (MC): where possible an MC on site can greatly enhance sport presentation. If present they can perform the following roles:
   a. Interact on a live level with spectators, including special cheers, noise-makers, giveaways, etc.;
   b. Be active with the spectators near the Field of Play (FOP), and particularly the stadium area, in engaging and exciting ways when the athletes are not in this area;
   c. Attend all rehearsals and meetings.

6.5 Disc Jockey (DJ):
   a. Ensure a complete selection of music to include:
      • High, medium and low tempo;
      • ITU processional music selections for swim start and medal ceremonies
      • Fanfare music for exiting moments, such as every time the athletes come into the stadium after the swim or laps on the bike or run;
      • Music that is representative of local culture and international popular pieces.
   b. Ensure the lyrics are appropriate;
   c. Music selections should suit the time and mood of the competition;
   d. Ensure all anthems are cued for medal ceremony;
   e. Attend all rehearsals and meetings.

6.6 Audio Operator:
   a. Operate mixing console;
   b. Monitor audio levels and maintain quality;
   c. Assist with bump-in and bump-out process;
   d. Assist the ITU Sport Presentation Manager with audio requirements;
   e. Attend all rehearsals and meetings.

6.7 Video Clip Switcher:
   a. Operates the mixers: visual outputs to screen;
   b. Assist with bump-in and bump-out process;
   c. Assist the ITU Sport Presentation Manager with all planned videos and advertising clips;
   d. Operate all graphic components for the video-board;
   e. Attend all rehearsals and meetings.
6.8 Protocol Manager:
   a. Liaise with the ITU Sport Presentation Manager on all protocol elements, including the list of VIPs in attendance and the times they are on-site and the timing for introducing them;
   b. Provide the script for the medal ceremonies with medal presenter’s names and accurate titles;
   c. Coordinate medal ceremony rehearsals and attendee’s with ITU Sport Presentation Manager;
   d. Abide by ITU flag protocols for country flags set up at venue and for medal ceremonies;
   e. Attend meetings of the SPT as requested.

6.9 Floor Manager/Entertainment Manager: Manages the live entertainment and the medal ceremony:
   a. Assist the ITU Sport Presentation Manager with all Live Entertainment including:
      • Directs and ensures live entertainment is ready on FOP.
      • Coordinates FOP movements which may happen between swim and bike laps. LOCs are strongly encouraged to provide some form of local culture or entertainment for spectators during quiet times, e.g., Japanese drummers, cheer leaders, etc.;
   b. Schedules rehearsals in consultation with the ITU Sport Presentation Manager;
   c. Manages food services and transportation for entertainers and medal presenters;
   d. Attend all rehearsals and meetings.

6.10 Technical Operations Manager: responsible for all technical requirements:
   a. Orders all technical equipment:
   b. Sound systems;
   c. Timing and results systems;
   d. Radios and ensures separate channel for the SPT;
   e. Manage the overall technical setup ensuring prime viewing areas for presentation team in fully equipped facility/tent;
   f. Ensure backup power and manage all competition-day technical support services;
   g. Attend all rehearsals and meetings.

6.11 Roving Camera Operator:
   a. Operates the roving camera that feeds directly to the video screen in the stadium.

6.12 Assistant Roving Camera Operator: (if needed)
   a. Assist the camera operator with movement of equipment and leads;
   b. Act as a runner for the roving cameraman.

6.13 Lighting Operator: this applies to indoor sport presentations requirements of such functions as the final banquet:
   a. Plot and record cues;
   b. Operates lighting desk;
   c. Assist with rigging and focus of lamps.
### 7. BASIC SPORT PRESENTATION RUN-SHEET:

Below is a sample run-sheet for a sport presentation model that involves a video screen fed by localised cameras (not live television). A full run-sheet will be produced by the ITU Sport Presentation Manager in collaboration with the LOC.

<table>

SECTION D:
REQUIREMENTS FOR MEDIA, TIMING & TELEVISION
SECTION D: REQUIREMENTS FOR MEDIA, TIMING AND TELEVISION

The section below contains the LOC requirements for the host broadcast company for the event. Please note that all requirements in this section are a guide only and adjustments may occur depending on the course and other local circumstances. The final set-up will be determined after a site survey, including the requirements of the LOC.

1. INTRODUCTION:

This section of the WTS LOC Requirements details the services provided by the ITU Media Team and the requirements for the LOC. Please read the document carefully to ensure all requirements are met. The ITU Media Team will offer the following on-site services:

1.1 ITU Website and Online Services:
   a. ITU will cover the events through its network of websites.
   b. Live and on-demand coverage of each race on www.triathlonlive.tv. The coverage will feature live video and audio except in markets where TV deals prohibit a signal. The internet coverage will be geo-blocked in these markets;
   c. Live timing and results display;
   d. Pre and post-race video highlights, features and interviews;
   e. Post-race event photo gallery and news releases;
   f. Full results postings.

1.2 ITU Print and press services:
   a. High quality professional photography of each race. These photographs will be made available to the LOC free of charge for editorial and internal promotional use;
   b. Distribution of images through international photo agencies;
   c. Preview and review features and stories of each race. These features are freely available to the LOC;
   d. Tailored releases highlighting athletes and newsworthy items; to key markets
   e. Detailed pre-race notes and statistics;
   f. International press booklets;
   g. Management of press operations on site, including management of the media zone;
   h. Assistance in coordination of interviews and athlete management;
   i. Triathlon News Service featuring rapid distribution of athlete biographies, flash quotes and other information.

1.3 Television and News: All television and news services will be provided by InFront/ITU & the Host Broadcast Company. See section 4. Below for the specific requirements for the host broadcaster.

1.4 Requirements of the LOC: To ensure a successful production of media and television services from the event the LOC is required to provide facilities and volunteers for each area mentioned above. In addition the LOC must provide a local timing and results supplier to provide services as specified in Section 3 below.

2. ITU PRINT MEDIA TEAM REQUIREMENTS:

2.1 Overview:
   a. The ITU Print Media Team consists of one or two ITU Media Delegate(s) and one or two official photographer(s):
   b. The Media Delegate prepares event media releases and alerts that are sent to a global database of dailies and industry publications. The ITU media delegate will act as a liaison between the LOC and Elite athletes and also help coordinate media operations on site – Press conferences, media accreditation, media briefing, media zones/areas and hosting.
   c. The Official Photographer captures photos from the event for distribution and ITU use. Each LOC will receive copies of the photos taken for internal use. The LOC must provide two motorbikes, drivers and extra helmets for the use of the official photographer and pool photographers.
   d. ITU will provide media vests that must be distributed and collected to media by the ITU Media Delegate;
   e. The Media Delegate will coordinate the production of content for the social media channels, including but not limited to live videos, pictures, audios, results and engaging with stakeholders on social media.
SECTION D: REQUIREMENTS FOR MEDIA, TIMING AND TELEVISION

2.2 Facility Requirements:

a. The LOC must provide an ITU Media Office (for print and TV) in host hotel – separate from the ITU office from 3 days prior to the event until race day. The office should have power, internet facilities and sufficient space for 10 people. This facility will be shared with the online/timing and television teams.

b. The LOC must also provide an on-site media office, for the ITU Media Team and official photographers. The facility must be situated at the race venue, and internet access/power should be available for use from two days prior to the first race until the morning following the final race. The office should be a minimum of 15 m\(^2\). There should be table and chairs for 8 people and computers. The LOC will provide a dedicated high-speed internet connection (minimum 20 Mb/s upload and download) and router/switch with minimum six free ports available.

c. The line cannot be shared with any other service provider (ITU Media, general media, timing etc.)

d. Wireless internet is required on venue to facilitate on-site coverage.

e. A video and audio output of the International live signal including English commentary should be provided from the host broadcaster. These must be provided by the host broadcaster to the on-site ITU Media office. A monitor should also be provided to enable the media team to monitor and report on the event.

f. The LOC must provide a press center at the race course for the general media that is adequate for the number of media in attendance.

2.3 Press Centre – equipment requirements:

a. The LOC will provide a stable high-speed internet connection and router / switch with enough ports for the expected number of media

b. Black and white laser printing facility

c. A high-speed photocopier with sufficient paper supplies and extra stationery

d. Notice board for maps, results and other news

e. Pigeon holes for press releases, course and athlete information and quotes

f. Extra stationery, pens and pencils

g. All printed media information (see Appendix A section 1.2 below for detailed information)

h. Refreshments and food for each day

i. Storage for photographer and media personal items

2.4 Media Operations:

a. Media Accreditation and Identification:

- Media must be accredited according to ITU accreditation guidelines document. This is available in the Event Organisers’ Manual.
- All media accreditation application must be approved by ITU Media Delegate. The final media accreditation application list must be emailed to ITU seven days prior to the event. ITU Media staff (TV Crew, Online, Photographers and Management) will have special identification. The LOC will be notified of this identification by the Team Leader.

2.5 International Media:

a. LOC to create a media invitation 30 days before the event for local media that will in turn be sent out to international media and trade publications by ITU if desired. ITU will also solicit attendance from media.

b. LOC should endeavor to provide accommodation with breakfast for international media attending the event. Media are responsible for payment, but the LOC should strongly consider having a budget to host international media. Accommodation should be in close proximity to Media Centre and race site. If not the LOC is responsible to provide adequate transportation to and from the Media Centre prior to the event and on race day.

2.6 Pre-Race Press Conference (optional):

a. The Pre-Race Press Conference timing will be determined 30 days out from the event in consultation with ITU.

b. Refreshments should be made available for media and attendees.

c. LOC must forward to ITU Media Delegate the requested attendees list (ITU athletes and delegates) one week before the press conference. ITU will aid in the solicitation of invitations.

d. LOC will ensure adequate facilities are prepared within close proximity to the host hotel (otherwise adequate transportation must be arranged).

- LOC must keep an attendance record for the press conference and forward to ITU Media Delegate after the conference;

e. LOC will set the location of the press conference in order to facilitate the athletes’ attendance.
SECTION D: REQUIREMENTS FOR MEDIA, TIMING AND TELEVISION

2.7 LOC area of responsibility: supplying the following items for the press conference:

a. Facilities (Seating, Tables, etc.);
b. Backdrop (must be approved by TL);
c. Adequate Audio Visual equipment;
d. Names and pronunciation of LOC Dignitaries;
e. Agenda/Run sheet;
f. Place Cards (ITU approved design);
g. Food and Beverage for Attendees;
h. Water and Beverage for head table;
i. Translator (if applicable);
j. MC;
k. Local gift for attending athletes;
l. Branding will be produced in consultation with TL.

2.8 Media Briefing:

a. LOC and ITU Media Delegates will give a Media Briefing to media and photographers before the competition;
b. TL will supply a general PowerPoint presentation to the LOC two weeks prior to the event for inclusion of course maps, media zones, scheduling and any other pertinent LOC information.

2.9 Media Zones/Areas:

a. The LOC will provide designated Media Zones on course for press, photographers and broadcasters, separate from spectators with adequate identification and efficient movement from zone to zone (i.e. not through crowd or long distances);
b. The LOC will provide a Media Zone at the finish line in accordance with the draft layout plan provided in the sample finish line layout. This zone should include a tiered platform for photographers at the finish line a designated area for host broadcaster interviews and a mixed zone for media separate from athletes;
c. LOC to provide a detailed site map with clearly identified media zones and areas to ITU Media Delegate and TD one month prior to the event. Map must include sketch of finish line area and mixed/interview areas;
d. LOC Media Manager to be available for course walkthrough with ITU Media Delegate and TD Friday morning for any last-minute alterations.

2.10 Post-Race Press Conference:

a. LOC to consult with ITU Media Delegate about need for post-race press conference. If deemed necessary please refer to Pre-Race Press Conference requirements above.

2.11 Personnel Requirements:

a. Volunteers

<table>
<thead>
<tr>
<th>Number of Volunteers</th>
<th>Duties</th>
<th>Time Required</th>
<th>Notes</th>
<th>Accreditation</th>
<th>Radio</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>Assist ITU Head of Communications</td>
<td>All race day</td>
<td>Fluent in English</td>
<td>Media Zones / FOP</td>
<td>0</td>
</tr>
</tbody>
</table>

b. LOC Personnel: The LOC should:
   • have a main media contact to liaise with local media;
   • provide a minimum of one media chaperone for every ten media in order to properly control and direct media traffic;
   • have an experienced Photo Chief to manage the special needs of photographers and direct them throughout the course;
   • make sure there is a Media Centre Supervisor in order to ensure proper operation of the center;
   • Produce a local press kit containing the items listed in 2.12.

2.12 Table of Contents for a Press Kit:

a. Schedule;
b. Organisation information (list of key organisational contacts);
c. Sponsor information;
d. ITU information (sent by ITU 30 days prior);
e. General city/region information (more if expecting international media);
f. Special events (functions or other races the media are invited to);
g. General media information (media center, briefing, media events, accreditation/identification, access);
h. Accommodation (if expecting international media);
i. Transportation/parking;
j. Course information;
k. Course Maps (with media areas highlighted);
SECTION D: REQUIREMENTS FOR MEDIA, TIMING AND TELEVISION

1. Ranking information;
2. Athlete profiles (top contenders only 6-10; visit ITU Online Media Centre for more top athletes);

2.13 Equipment and Logistics Requirements:

a. The LOC must provide two motorbikes with drivers and helmets for the official ITU photographer and pool photographers. Any additional motorbikes for local media access are the responsibility of the LOC and all vehicles on course must be approved by the ITU Technical Delegate.

2.14 International PR and promotion:

a. The LOC should provide a minimum of 15.000 USD in triathlon trade specific advertising budget. This budget should only be distributed in conjunction with ITU Media. This budget will be combined with other LOC’s advertising budget to pool resources to maximize exposure for the event and leverage bulk discounts.

3. TIMING AND RESULTS SERVICE REQUIREMENTS:

3.1 Overview:

a. Timing and results services are the cornerstone of a successful broadcast from an ITU World Triathlon Grand Final. These services are the basis for a professional and accurate production of a live TV signal. As a result the following technical requirements for any timing company that wishes to provide basic timing and results services. Please note that it is the responsibility of the LOC timing company to fulfill these requirements in full.

3.2 General requirements:

a. The event must select a partner – the Service Provider – to secure the required quality of basic timing and results service.
b. The Service Provider should work on a “near invisible” basis during the event, with absolute minimum presence on the event course.
c. The Service Provider must be able to produce data displaying the results of the event, including each individual leg (swim – bike – run), and with multiple splits during each leg, where course layout accommodates this.
d. The Service Provider must provide a direct connection to the graphics company to provide the basic timing service data.
e. Where possible timing systems must be hidden from media, TV and still photographers.

3.3 Timing System:

a. Requirements of the transponder system:
   - Reliable, so all times are captured without losses;
   - Able to capture splits for each individual leg, including multiple splits on swim (on water exit), bike and run;
   - Attached to the athlete in an ankle band or race number;
   - Attached to the athlete in a manner that does not influence the performance of the athlete
   - Work under the regulations of CE and FCC;
   - Weight must be not more than 20 grams;
b. Deliver live data in real time to the timing and results software used by the Service Provider;
c. Able to vary in width from two to eight meters without obstacles on course;
d. For the elite races using non active chips a second chip per athlete MUST also be placed on the bike to ensure 100% data capture. Timing of ITU World Triathlon Grand Final events must be done with an ITU approved transponder system. Non ITU approved systems are not allowed.
e. Important Note: The only approved ITU timing systems are:
   - AMB-it;
   - ChampionChip;
   - MyLaps
   - MTS (J-chip);
   - Winning Time.
SECTION D: REQUIREMENTS FOR MEDIA, TIMING AND TELEVISION

3.4 Use of Timing System:

a. Timing systems should be installed so as to isolate each discipline (swim, transition one (T1), bike, transition two (T2) and run) and capture multiple split times during each discipline also (if athletes exit swim after each lap and if athletes lap through transition area during the bike and the run) and provide backup lap counting on the bike and run segments. The following timing data is required:
   - Swim intermediate times;
   - Transition 1 times;
   - Bike lap times;
   - Intermediate Bike lap times (systems should be placed approximately mid-way on bike lap to give updated data for TV graphics mid-way on each lap); Please consult TV Production Director if required.
   - Transition 2 times;
   - Run lap times;
   - Intermediate run lap times (systems should be placed approximately mid-way on run lap to give updated data for TV graphics mid-way on each lap); please consult TV Production Director if required.
   - Finish time.

b. The Service Provider must have direct connections to the timing locations via RS232, RS485 or Ethernet where such connections can be drawn.

c. On locations where this is not possible the Service Provider must aim at using internet based connection via DSL or GPRS (or similar mobile connection) in that order of priority.

d. ITU emphasizes use of direct connections where the distance is less than 200m from the event venue timing and results base location.

e. The Service Provider must have live real-time connections to timing locations to pull or retrieve data instantaneously.

f. Important Note: Manually transporting times via a USB stick or similar device is not allowed.

g. The captured data will be accessible in real time for the Technical Official located in the Timing room. A monitor or computer in the Timing room to be used for this purpose.

h. Additional information coming from the Field of Play will be included manually by the Technical Official.

3.5 Software:

a. The Service Provider software must be able to receive data live in real time from the timing locations.

3.6 Live services during event:

a. ITU requires two hosted XML outputs to facilitate live coverage.

b. The first is the current race split, the second a cumulative individual athlete lap times for each participant.

c. Each athlete splits page is to be called via a unique id number in the athlete split URL. This number should be contained within the current race split page to allow a reference. This number at your discretion may be the race number.

d. Each page should be updated immediately on receiving data, allowing 30 seconds for manual corrections if needed. The current race split is to show only the current lap split data.

e. These pages will not be made directly accessible to the public. The ITU server will be the only application accessing these pages. This will ensure minimal stress and allow very frequent updates. The server will be set to read every 15-20 seconds.

f. Live times must be provided for each lap of the swim, bike and run.

g. The application used by the Service Provider must have the functionalities to display results after each lap with the following information:
   - Rank on selected split;
   - Race Number (athlete number);
   - Name;
   - Country IOC 3 letter code;
   - Leader cumulative time;

h. Time difference to leading athlete on selected lap.

i. Full samples and assistance is available from ITU.

3.7 Event Venue Services:

a. The timing provider should be able to provide an Intranet CIS capable of connecting to various fed points such as media center consoles, commentator information systems and VIP hosting areas.

b. Physical printouts of all relevant data are also required for Elite, Paratriathlon and Age Group races.

c. The timing provider should be able to deliver updates via SMS and mobile technology if requested.

d. The timing provider should provide a gantry finish clock capable of displaying time and competitor data such as name, nationality, category etc., an electronic lap counter and scoreboard capable of graphic display.

e. A printed results distribution procedure similar to the sample below should be able to be delivered.
3.8 Sample results distribution list. Official Results Service:

a. Official results should be made available in a timely manner in formats as specified by ITU including detailed race analysis. Exports in various formats should be possible to relevant third parties (media, event officials, IT partners etc.). Any photo-finish images should be available instantly for event officials, media and TV partners.

b. The official results output must include the following information:
   - Event Information such as: Event Name, Event Data, Start Time, Event Officials, Event Distance, Course Data and Weather Information;
   - Rank of athlete;
   - Race number of athlete;
   - Name of athlete;
   - National federation of athlete;
   - Swim time + Rank on swim leg;
   - 1st Transition time + Rank on 1st transition leg;
   - Bike time + Rank on bike leg;
   - 2nd Transition time + Rank on 2nd transition leg;
   - Run time + Rank on run leg;
   - Total time;
   - Time offset to winner;
   - The cut-off time + the number of athletes within cut-off time;
   - Points achieved by the athlete.

c. The results must be displayed in the order of ranking 1, 2, 3, etc., then DNF’s, DNS’s and DSQ’s. DNF’s must be sorted by the number of legs completed, then by time accumulated after last completed leg.

d. The timing company must provide the results in the ITU database table for archiving on www.triathlon.org, via a pre-specified Excel spreadsheet.

e. The timing company will be given this file from ITU Online Services & New Media before the event and the ITU technical delegate will ensure that the start lists are correct. The race referee will sign off the results after each race to confirm them as official results.

f. The files once completed and verified should be emailed to the following email address: entries@triathlon.org

g. Results should be emailed no later than five minutes after the official results are confirmed. This applies to both the men’s and women’s races.

3.9 Age Group Results:

a. The timing company must create two sets of results for all Age Group competitions:
   - One set with results as of December 31st in the year of the competition for race day results and awards.
   - These results must be emailed to entries@triathlon.org after the race.

3.10 Manual Back-up:

a. All timing systems should work on a fail-safe basis, with zero tolerance for data error or system failure due to live television requirements. The timing company has to prepare a manual backup to cover the contingency of missed data because of chips lost during competition.
Furthermore in the event of catastrophic and unavoidable failure of the timing systems, the timing company should have a manual back-up system to provide accurate finish time and position data.

3.11 Photo Finish System:

a. The Service Provider must supply Photo Finish Services to decide positions on close finishes in the event. The Service Provider must work with equipment from one of the below listed manufacturers:
   • TimeTronics
   • FinishLynx
   • Alge
   • Omega
   • Seiko

b. Two photo-finish cameras must be provided – positioned on either side of the finish Gantry and an official finish line must be marked for the decision of the final result. For close finishes the Service Provider must be able to export the picture immediately to the host broadcast company and ITU Media team.

3.12 Basic Broadcast Services:

a. The timing and results services provider is required to feed data containing:
   • Competition schedule;
   • Start lists;
   • Intermediate standings during and after the different splits/laps taken on the different legs (swim/transition/bike/transition/finish) Fastest times on selected lap/splits legs;
   • Final results;

b. The timing and results services provider is required to feed this and work together with the TV graphics company used by the TV production company at the event. This data must be available to the TV graphics company in either a push or a pull protocol. The timing and results services provider must be able to send data over the following methods of communication: TCP/IP, RS232 and RS485.

c. The timing and results services provider is required to continuously review data before released to the TV graphics company throughout the competition, and is requested to have a dedicated person for this purpose. From athlete passing to release of standings information this must be in real time, unless otherwise distribution plan has been agreed between the timing and results services provider and the TV production company.

d. Details on additional features should be laid out in the proposal, such as information on;

- Athlete information request;
- Competition environment request;
- Results analysis;
- The timing and results services company should arrange the transfer of timing data to the graphics provider, with consultation to the LOC and TV production contacts listed below in Section E.
- Where possible within the range of networking with cable, a direct cable connection must be used for communication between the timing and results services provider and the TV graphics company. Where this is not possible optimum solution with either internet or wireless should be carefully considered by the two parties.

e. Notes:
   • It is the responsibility of the local timing company / service provider to ensure that there is a working interface to the graphics provider.
   • The LOC timing company must provide one contact person from their local timing company to coordinate the protocols in use and the technical requirements of HBC.

4. TV REQUIREMENTS

IMPORTANT: Please note that this section related directly to ITU/InFront and the HBC. All questions should be directed to the TV Production or Rights Directors.
SECTION D: REQUIREMENTS FOR MEDIA, TIMING AND TELEVISION

4.1 Preamble:

a. The ITU World Triathlon Series is the premium product of Olympic Triathlon. In order to establish the series on a worldwide basis it is necessary to have a consistent high quality TV product. ITU and LUE define the TV product as a combination of live races, magazine shows and news distribution. All this will be offered to international broadcasters.

b. It is the responsibility of the LOC to provide a host broadcaster for the event (HBC). The HBC will be obliged to produce a TV signal of both races (elite men and elite women) for national and international broadcast partners.

c. The LOC will, in return, receive all national TV rights for all live races of the entire ITU World Triathlon Series. These rights include:
   - The footage from the home event produced by their appointed HBC;
   - The footage from all other live races of the series including the Grand Final for the respective home territory of the LOC; and
   - The Magazine Shows for the Series (# of events x 48 minutes each).

d. In addition it is the responsibility of the LOC to provide at least one free to air broadcast partner for the home event. This national TV partner will air both home races live or re-live in full length as a minimum broadcast obligation. For the good of the Series and the development of the product the LOC will do their best efforts to oblige their national TV partner(s) to air as many (live) broadcasts of the series as possible. The HBC or the chosen delivery partner is subject to final approval by ITU/InFront.

4.2 Production:

a. This document serves as a general guideline for the host broadcasters (HBC) of the ITU World Triathlon Grand Final. It is well acknowledged that this document can only give general statements related to the coverage of the ITU World Triathlon Grand Final. Detailed discussion with the proposed HBC is required before a final decision is made and adjustments to these requirements may have to be made depending on the course and other local circumstances. The final set-up will be determined after a site survey with the LOC, HBC and ITU/InFront.

b. The host broadcaster will be obliged to produce a world-class live feed of both the Elite Men's and Women's races. It will be responsible to deliver all equipment and manpower necessary for such coverage from the venue as well as facilities and any required manpower to facilitate the production of the Magazine Show.

c. However, InFront will consult the HBC for the final set-up and the edit flow, the use of graphics and statistics and reserves the right to bring its own director and part of the camera crew for each production. Any final camera plan and other local settings must be approved by ITU/InFront.

d. The normal obligations of an HBC such as on-site coordination for licensees present in the venue should be fulfilled by the HBC too.

e. The HBC will make available the feed to ITU/InFront and licensees at the venue as determined by InFront.

f. The feed will be produced in the following format: High Definition 1080/50Hz (or equivalent HD standard in the HBC country)

g. The HBC will be ready to start the Feed at least two (2) hours prior to the Event.

h. Two USB recording (more upon request) and three HDCAM recordings (one clean/clean and two PGM with intl. sound) will be supplied to ITU/InFront in addition.

i. Upon prior consultation of the HBC, InFront will determine the final set-up and the edit flow, the use of graphics, statistics and timekeeper. InFront reserves the right to bring its own director and part of the camera crew for each production and will be entitled to use the technical means provided by HBC. Any final camera plan and other local settings must be approved by ITU/InFront.

j. ITU/InFront will provide a Live Producer in charge of the editorial treatment of the event, good usage of the graphics guidelines and delivery of the international running order for each WTS event.

k. The feed must be completely neutral and independent and free of any domestic elements.

l. The feed will be accompanied by full international sound in stereo quality (Dolby 5.1) and will cover in full, all the action from the event.

m. InFront will provide two English commentators whose audio must be implemented into the Feed by the HBC. Furthermore, InFront will hire a provider for GPS data provider as well as a provider for TV graphics whose services must be implemented into the OB production and used for the International Feed.

n. The HBC will implement the official opening and closing sequence provided by InFront and will implement – if produced by InFront –clips, profiles, vignettes, and features about Athletes, the venue and the track (virtual / animated), the city and other relevant content promoting the ITU, the competition and the location at the reasonable discretion of InFront.

o. The HBC will implement the official opening and closing sequence provided by InFront and will implement – if produced by InFront –clips, profiles, vignettes, and features about Athletes, the venue and the track (virtual / animated), the city and other relevant content promoting the ITU, the competition and the location at the reasonable discretion of InFront.

p. InFront will provide a Live Producer in charge of the editorial treatment of the event, good usage of the graphics guidelines and delivery of the international running order for each WTS event.

q. The feed will be produced in the following format: High Definition 1080/50Hz (or equivalent HD standard in the HBC country)

r. The feed will be accompanied by full international sound in stereo quality (Dolby 5.1) and will cover in full, all the action from the event.

s. InFront will provide two English commentators whose audio must be implemented into the Feed by the HBC. Furthermore, InFront will hire a provider for GPS data provider as well as a provider for TV graphics whose services must be implemented into the OB production and used for the International Feed.

35 | SECTION D: REQUIREMENTS FOR MEDIA, TIMING AND TELEVISION | ITU WORLD TRIATHLON GRAND FINAL 2021
SECTION D: REQUIREMENTS FOR MEDIA, TIMING AND TELEVISION

p. The LOC support for TV includes the provision of certain space and facilities within the venue and course for the HBC and any InFront International Broadcasters with unilateral on-site presence, as well as other positions to observe proceedings to ensure consistency across the event.

4.3 Coverage outline:

a. The International Running Order for the live coverage of the elite event will be provided by InFront.

b. Triathlon is determined by the challenges of three different sports each having its own specific requirements for TV coverage and possibly taking place in different environments. The following will give a short outline what we consider crucial scenes in each of the disciplines. For each of these scenes the host broadcaster will make every effort to ensure the best possible coverage, use the most suitable equipment and the best positions for camera equipment. Upon request ITU/InFront will provide video examples of ideal live coverage from a previous event.

4.4 Audio:

a. InFront expect (directional) microphones at each crucial point of the coverage:
   - Exit from swimming
   - Transition zone to cover fast passing bikes, steps, atmosphere of spectators
   - Finish line
   - At location of specialty cameras

4.5 Equipment to be used: For the described coverage we expect the following list of equipment as follows:
### SECTION D: REQUIREMENTS FOR MEDIA, TIMING AND TELEVISION

<table>
<thead>
<tr>
<th>Description</th>
<th>Minimum Number (possibly higher depending on venue):</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>OB Truck:</strong></td>
<td>1 unit, with hard disk slow motion systems</td>
</tr>
<tr>
<td><strong>VTR:</strong></td>
<td>3 x HDCAM + Tape stock</td>
</tr>
<tr>
<td><strong>USB recorder:</strong></td>
<td>2 x USB + USB stock</td>
</tr>
<tr>
<td><strong>Helicopter with WESCAM:</strong></td>
<td>1 x with Bi-Turbine Engine</td>
</tr>
<tr>
<td><strong>RF coverage:</strong></td>
<td>Best endeavor to provide uninterrupted RF signal for the entire race, e.g. pressurised RF relay plane. System to be validated by WTC before deployment.</td>
</tr>
<tr>
<td><strong>Cameras on boat:</strong></td>
<td>2 x separate boats (One for the wireless handheld and one for a Polecam)</td>
</tr>
<tr>
<td><strong>Cameras on motorbikes:</strong></td>
<td>2</td>
</tr>
<tr>
<td><strong>Handheld cameras:</strong></td>
<td>4</td>
</tr>
<tr>
<td><strong>Polecam:</strong></td>
<td>1</td>
</tr>
<tr>
<td><strong>Cameras on tripod:</strong></td>
<td>Minimum 3</td>
</tr>
<tr>
<td><strong>Super slow motion cameras:</strong></td>
<td>1 camera, 2 positions</td>
</tr>
<tr>
<td><strong>EVS</strong></td>
<td>Minimum 2 x EVS each with operators, all signals individually routable onto the different inputs of the EVS via a router panel. One (1) of these two (2) EVS operators will be required to edit a 3-minute news playlist during the live coverage for ITU/InFront. In addition, after the termination of the live coverage, ITU/InFront will require 1 EVS with an operator to play out extra footage and graphics. ITU/InFront request access to all the footage in the EVS units to be dumped onto one external hard-drive for archive purposes, along with an EVS operator, up until 2 hours after the end of the live feed.</td>
</tr>
<tr>
<td><strong>Card Reader</strong></td>
<td>For request of ENG material shot by HBC/ENG crew</td>
</tr>
<tr>
<td><strong>Cables</strong></td>
<td>All cable works and cable crossings have to be provided by HBC</td>
</tr>
<tr>
<td><strong>Jimmy Jib</strong></td>
<td>Depending on venue and course</td>
</tr>
<tr>
<td><strong>Power:</strong></td>
<td>UPS, e.g. Twin Pack generator or similar reliable uninterrupted power solution. System and schematical drawings to be validated by InFront in advance</td>
</tr>
<tr>
<td><strong>Extras:</strong></td>
<td>Anything necessary for implementation and organisation of frequencies, antennas for the wireless cameras and microphones, cherry pickers, cranes etc.</td>
</tr>
<tr>
<td><strong>Commentary unit:</strong></td>
<td>1 fully equipped unit for 2 commentators (power, desk, chairs, monitors, headsets, microphones, codec with intercom, connectivity etc.)</td>
</tr>
<tr>
<td><strong>Comms</strong></td>
<td>OB - Van &lt;-&gt; Camera circuit</td>
</tr>
<tr>
<td></td>
<td>OB - Van &lt;-&gt; English commentators (with separated talkback to OB van)</td>
</tr>
<tr>
<td></td>
<td>OB - Van &lt;-&gt; TV Graphics</td>
</tr>
<tr>
<td></td>
<td>OB - Van &lt;-&gt; ITU Producer (on radio)</td>
</tr>
<tr>
<td><strong>Graphic equipment:</strong></td>
<td>InFront will provide supplier of TV Graphics. HBC will be responsible for implementing virtual enhancements and data service within the live feed</td>
</tr>
<tr>
<td><strong>ENG Crew</strong></td>
<td>Available for 4 days (including the race days) Solid-state HD ENG Camera incl. tripod. Standard 3-head lighting kit &amp; sound kit for interviews incl. handheld and clip-on mic, e.g. Panasonic AJ-PX5000G incl. minimum 4 x 64 GB P2 media cards (to be returned) or Sony PMW500 incl. 4x 6x5 64GB cards (to be returned)</td>
</tr>
<tr>
<td><strong>Creative Crew</strong></td>
<td>Director, Editor, Camera crew and all relevant creative crew. InFront reserves the right to provide the TV Production Director in order to ensure best coverages.</td>
</tr>
<tr>
<td><strong>Licenses:</strong></td>
<td>All required frequencies and permissions for communication, microwave, relay station, helicopter</td>
</tr>
</tbody>
</table>

#### 4.6 TV Graphics and Data:

a. ITU/InFront will determine one TV Graphics and data supplier for the entire ITU World Triathlon Series. The supplier will deliver a large amount of data useful for the coverage and the analysis of the competition. It will serve both live and highlight programmes.

b. The HBC is entitled and requested to make extensive use of the data provided and should make arrangements for all graphical implementation into the world feed. Some data and graphics may be connected to a sponsor.
SECTION E: ITU CONGRESS & MEETINGS

congres inaugural union international du Triathlon Avignon 31.03.89
1. ITU Congress:

1.1 The ITU Congress is one of the most important events of the International Triathlon Federation and its members, the National Federations and the Continental Confederations as well as for the members of the ITU Committees and Commissions. The ITU Congress is scheduled to coincide with the WTS Grand Final. It requires a significant level of support from the Local Organizing Committee. The below outlined requirement needs to be provided and paid for by the LOC unless mentioned otherwise in the table. All meetings, offices and Congress should take place in the same location, ideally in the host hotel. The Congress is the highest level governing body of the ITU, together with meetings of the ITU Continental Confederations, ITU Executive Board, ITU Committees and Commissions, among others.

a. Meeting rooms:
   - ITU Congress Room Technical, Audiovisual Equipment and volunteer support: (refer to table below)

b. Accreditation:
   - The LOC will produce the accreditations for the Congress delegates with name/photo, which will be valid as a VIP access for each during the competitions and social functions.

c. Accommodation:
   - The LOC should be able to propose a prize of maximum of 90USD/ per night for the rooms for the NFs delegates (1 per NF – 160 NFs).
