12. Information of Host City 举办城市介绍

Chengdu is located in the hinterland of Chengdu Plain, the largest plain in east of western China as well as in southwest of China, with an area of 12,400 square kilometers and a population of more than 16 million. The territory is flat, the river density is high, the products are rich, and the water system is developed. Since ancient time, it has the reputation of "the land of abundance". It is one of the first national historical and cultural cities and the best tourist cities in China. It is also the logistics, commerce, technology, finance, culture, education center and the transportation and communication hub of southwestern China known as the "hometown of pandas". At present, Chengdu is accelerating the construction of a city that fully reflects the new development concept, and actively builds "three cities and three capitals", namely "world-famous cultural city", "world-famous sports events city", "world-famous tourism city", "international capital of gastronomy" and "international capital of music", "international capital of exhibition and conventions".

成都，位于中国华西地区东部、西南地区最大平原——成都平原腹地，面积1.24万平方公里，人口1600余万。境内地势平坦、河网纵横、物产丰富、水系发达，自古就有“天府之国”的美誉，是国家首批历史文化名城和中国最佳旅游城市，是西南地区物流、商贸、科技、金融、文化、教育中心及交通、通信枢纽，也是闻名中外的“熊猫之乡”。当前，成都正加快建设全面体现新发展理念的城市，积极打造“三城三都”，即“世界文化名城”“世界赛事名城”“世界旅游名城”“国际美食之都”“国际音乐之都”“国际会展之都”。

Jintang County, located at the northeast of Chengdu Plain, covers an area of 1,156 square kilometers. Longquan Mountain passes through the territory and Tuojiang River was originated from here, which give birth to the graceful natural scenery and profound cultural history. It also enables Jintang County to be a transportation hub in western Sichuan since ancient times and a place for merchants to gather, known as the "First City in the drainage basin of Tuojiang River". Today, Jintang County is also the "bridgehead" in the construction of double-city economic circle in Chengdu-Chongqing area, a key part of the integration of Chengdu-Deyang-Meishan-Ziyang, and the core area of the economic development zone of Chengdu international railway port.

In recent years, Jintang County has deeply explored human resources and excellent ecological endowment to boost the construction of a strong chain of cultural and tourism industry and accelerate the modernization of tourism development, the refinement of tourism supply, the standardization of tourism governance, the characterization of tourism image, and the maximization of tourism benefits, which has initially formed a regional tourism development pattern of "one center with two corridors and three districts", and has thus comprehensively assisted Jintang County in the high-quality construction of "East Center of Chengdu as well as Park and Water City".
