1. WELCOME

Greetings from the Italian Paralympic Committee President

It is a great pleasure for me sending my greetings to President Giubilei and to all Triathlon Community for the Europe Triathlon Para Cup and the Italian Paratriathlon Series, a double event that I consider particularly relevant for Italian paratriathlon and, more generally, for the entire Italian Paralympic movement.

With the event in Bari, FITRI begins its own journey to Paris 2024 Paralympic Games, an event so important for Italian sport. The assignment of points valid for the paralympic Games qualification represents, in fact, one more reason of interest to follow the Europe Triathlon Cup, a high standard international competition with the appeal to attract the best athletes of Paratriathlon while confirming how Italy is at forefront, not only for technical aspects, but for event organization also.

The Continental Review and the following Italian Paratriathlon Series Final are not only an agonistic moment because they represent a great importance in terms of Promotion that FITRI, since the beginning, carried out with relevant and positive results. A high-quality work, well managed by qualified coaches, right oriented to attracting Youngs to this exciting and fascinating discipline.

A relatively recent story, that of the paratriathlon, which made its debut on the stage of a Paralympics in 2016 in Rio but which in just two editions of the Games was able to obtain five medals, moreover, affecting all classes of disability, to demonstration of the extraordinary commitment and work of an entire federation.

Therefore, the Italian Paratriathlon becomes more competitive, and it is the best viaticum to arrive to Paralympic Games to which, I am sure, FITRI will be ready to deal with the challenge.

In the same way, I am also sure that Europe Triathlon Para Cup and the Italian Paratriathlon Series will represent the opportunity to live inclusion and sociality as always FITRI promotes in its activities.

What you are facing is an ambitious challenge, but it is precisely through such challenges that FITRI obtained a relevant role and an exponential growth within the sports scene.

I sincerely wish you good job and good luck to all athletes.

Luca Pancalli

President, Italian Paralympic Committee

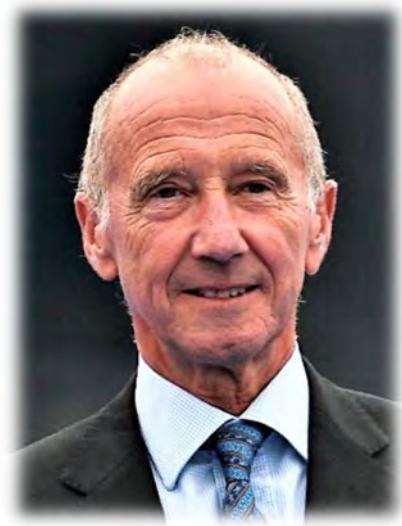

Greetings from the Europe Triathlon President

It is a great pleasure that I welcome all the Paratriathletes here in Bari.

The Paratriathlon movement is finally gaining its place in the busy Calendar of Triathlon races in Europe.

More and more Cities are willing to organise this type of races and I am particularly happy that Bari has made this step forward.

I do hope it will be the first of many editions to come.

Thank you to the City, the Organising Committee and the Italian Federation for making it possible.

Renato Bertrandi

Europe Triathlon President

Greetings from the Italian Triathlon Federation President

The Europe Triathlon Para Cup competition, taking place in Bari (Puglia) on September 18th 2022, is an event which we are very fond of.

The Italian Triathlon Federation is truly committed to support and develop Paratriathlon as one of the crucial activities of the Federation, confirmed by the outstanding goals achieved and the medals won by our amazing group of paratriathletes. Moreover we are sure to accomplish something that goes far beyond the growth and the evolution of a para-sport, we are actually investing in supporting and creating role models for everybody.

We are extremely proud of the collaboration with the Paralympic Italian committee (CIP) and the President, Mr Luca Pancalli. I'm truly grateful for their and his consistent and stable support for all our events and activities. Having them beside us, step by step, allows Fitri to play an important role in the international landscape.

The Europe Triathlon Para Cup is the first international event which will take place in Puglia, a Region which has proven to have done giant steps forward and improvement both in the level of the organizational skills and in the development of our sport on the territory. This event is definitely the best way and a very good chance to start over on a path of significant growth for Paratriathlon after the hiatus caused by the pandemic.

Last but not least, I deeply thank the local organizers and the Fitri Regional Committee of Puglia, which is supporting the organization.

On behalf of the whole Federation, I wish them and to all the athletes a great race!

See you in Bari!

Riccardo Giubilei

President, the Italian Triathlon Federation

Greetings from the Mayor of Bari

We are very proud to renew again this year the collaboration with Bari Zero Barriere and all the associations working on this important project of inclusive sport, awareness of citizenship, and promotion of the territory.

It will be an honor for us to close the summer season with this prestigious event that once again attracts athletes from all over the world whom this year will compete for an even more important occasion: Paris 2024 Paralympics. Sport has long been fundamental leverage for us and in recent years has allowed this city to develop in the field of competitive, amateur, and inclusive sport, available for all ages and capabilities. Thanks to the extraordinary work carried out by associations and operators, sport has become an important sector for significant territorial marketing and tourist projects.

We are sure that this year's event Bari Zerobarriere will attract many guests, visitors, and contestants that will enjoy a welcoming city that will cheer for these athletes.

Finally, I would like to thank FITRI (Italian Triathlon Federation), CIP (Paralympic Committee), and especially the WT (World Triathlon Organization) who accepted the nomination of local associations and the city of Bari to host this important initiative.

Antonio Decaro
Mayor of Bari

Greetings from the **ZEROBARRIERE s.c.s.** Founder

My experience with para-triathlon started in 2016 when I went to Policastro to attend for the first time a national competition organized by the FITRI (Italian Triathlon Federation).

At the time - as still today - I was a councilor in charge by the mayor of Bari for the accessibility of the city and I saw the potential of this sport in promoting inclusion in many fields: the host city should ensure the accessibility of several structures, transports should be fully accessible for participants to reach the site, and the accommodations should be suitable to welcome the athletes.

A year later with the ZEROBARRIERE cooperative (which I founded at the end of 2014 with irreplaceable companions), in agreement with the Italian Triathlon Federation and the regional CIP, and with the support of the local municipal administration, we held in Bari the first of three (2017-18 and 19) national para triathlon contests which, to show the need for universal inclusion and sharing, took place alongside three triathlons competitions.

Today, after having successfully organized three national events and despite Covid, we have gained the necessary experience for going up to an international stage with the already technically mature a.s.d. O3 in Noci (BA): the Europe Triathlon Paracup Bari 2022.

All this was made possible thanks to FITRI and CIP and the participation of public and private entities, local and non-local, in this international paraspot event.

Marco Livrea
ZEROBARRIERE s.c.s., Founder and Legal Representative
