

Torch Relay is one of the most important activities before every Olympic Games and Youth Olympic Games. This is not only a significant chance to promote Olympic values, but also a vital method to strengthen the worldwide sports and education exchanges. Torch Relay for Nanjing 2014 Summer Youth Olympic Games—including physical and virtual ones--will highlight the Virtual Torch Relay, focusing on various cultures, promoting healthy and low-carbon lifestyle, encouraging communication and exchanges, appealing young people to take part in the sports and encourage them to join hands to realise dreams of youth.

Nanjing 2014 will inherit the Olympic traditions and yet create a brand-new version of Virtual Torch Relay with an App that integrates new media and technologies. The App is compatible with iOS, Android and PC operational systems in 16 languages such as simplified Chinese, English and French. Such an App breaks the geographical boundaries, time and number of participants. Cell phones and PCs become powerful tools to spread the values and spirits of the Olympic Movement. The App enables everyone to participate in and share the joy of the Torch Relay online.

You may download the App through the following ways:
