

FINANCIAL REPORT 2022

The year 2022 marks the normal return of our activities which were disrupted by COVID-19 in 2020 and 2021. Thus, we were able to run most of the national triathlon championship days.

The Dakar 2022 project funded by the Association of Francophone Triathlon Countries went well this year. We recall that this project aims to significantly increase the number of practitioners throughout Senegal. It also aims to detect and prepare young athletes capable of validly representing Senegal in international competitions, in particular the Youth Olympic Games in Dakar in 2026.

Unfortunately, the project has stopped since December 31, 2022 because the funding has run out. The Senegalese Triathlon Federation (**FSTri**) is looking for partners at national and international level for the sustainability of this project until 2026, the year of the Youth Olympic Games.

Senegal hosted the Zone 1 Championship (West Africa) in November 2022 in Ngor with the participation of countries such as **Benin, Guinea - Conakry and Niger**, as well as **Algeria** as guest of honor.

Internationally, our triathletes have participated in the African triathlon championships in Agadir, Morocco, the zone championship in Niamey, Niger and the junior African cup coupled with a training camp in Dakhla, Morocco. Our participation in these international competitions has been funded by the Ministry of Sports of Senegal.

The financing of the other activities for the year 2022 comes from the annual subscriptions of the clubs for their affiliation, from some sponsors, from subsidies from the town halls and local authorities and from the own funds of the FSTri.

As a reminder, all income and expenditure listed in the table below were made during the 2022 season and are therefore operations carried out between January 1st and December 31 of last year.
